How to read this report

This report shows many customers use the CTA rail system. The report has two sections: Ridership by Branch, and Ridership by Entrance.

How are customers counted?

A customer is counted each time he or she passes through a turnstile to enter a station. Customers are not counted when they make a free transfer from one rail line to another, since they don't pass through a turnstile. Nor are customers counted when they leave a station, even if they leave through a turnstile.

Some CTA stations serve more than one line. The report does not show the number of customers boarding each line at such stations, simply the total number of customers who entered the station. For example, even though Howard station is reported as part of the Red Line, customers also enter at Howard to ride the Purple and Yellow Lines. The report shows the number of customers who entered at Howard but does not distinguish which lines they boarded.

Ridership by Branch

The CTA system consists of several branches. Ridership on each branch is reported in this section. Some branches, such as the Congress Branch, are part of a particular line (Blue Line, in this case). Other branches, such as the Loop, are part of multiple lines.

Ridership by Entrance

Ridership at each station is shown in this section. For stations with more than one entrance, the entrances are reported individually along with the station total.

How do I compare this year to last year?

When comparing one year to another, it is best to use the weekday, Saturday, and Sunday averages rather than the monthly totals. The monthly totals are affected by the number of weekdays, Saturdays, and Sundays in the month, which can vary from year to year. For example, September 2000 and 1999 had the following breakdown of days:

	1999	2000
Weekdays	21	20
Saturdays	4	5
Sundays	5	5

Note that September of 1999 had one more weekday than September 2000 and one fewer Saturday. Since weekdays typically have much higher ridership than Saturdays, September 1999 would have a higher monthly ridership than September 2000, all other things being equal. Averaging corrects for this problem.

What if I want to compare past years?

The CTA produces two reports with historic rail ridership:

Weekday Traffic Trends shows average weekday ridership for each station for each year going back to 1976.

Annual Rail Traffic shows total annual ridership for each station for each year going back to 1979. (The years 1979-1998 are in report PSP-x99026. 1986-1999 are in report PSP-x00031.)

To obtain copies of these reports please contact Data Services and Development.

Holidays

The following holidays are reported as Sundays:

- New Year's Day
- Memorial Day
- Independence Day
- Labor Day
- Thanksgiving Day
- Christmas Day

All other holidays are reported as the type of day they fall on.

Why does it appear that there is ridership on the Douglas Branch on Saturday? Isn't it closed?

Although the Douglas Branch is closed on weekends, the Friday service extends past midnight. Those customers who enter a station after midnight on Friday (that is, on Saturday) are reported as Saturday entries.

October 2004 Notes

The following factors influenced October 2004 rail ridership.

Red Line Lake Street mezzanine exit only

Effective Friday, August 27, the Red Line Lake Street mezzanine became temporarily exit only, as work continues on a subway station renovation. Red Line riders can enter the station from the Randolph-Washington mezzanine, about one block to the south.

California and Damen Stations ☺ (54/Cermak – Blue Line) Open

Opened July 22, 2004. The California station ☺ is accessible through two entrances – the main entrance is located on the east side of California, and a new auxiliary entrance and exit is located on the west side of California. The newly renovated Damen station ☺ replaces the former Hoyne station. The name change reflects that the location of the main station house is now on the Damen Avenue (east) end of the platform instead of the Hoyne Avenue (west) end of the platform. The former entrance at Hoyne Avenue has been converted into a secondary entrance.

Western Station ☺ (54/Cermak – Blue Line) Opens

Opened June 4, 2004. Customers can access the facility through two entrances -- the main entrance is located on the east side of Western, and a new auxiliary entrance and exit is located on the west side of Western, providing convenient access to and from the station from either side of Western Avenue.

Kedzie Station ☺ (54/Cermak – Blue Line) Opens

Opened March 29, 2004. The main entrance to the stationhouse is on the west side of Kedzie, with an auxiliary entrance and exit located on the east side of Kedzie, providing convenient access to the station.

Central Park Station ☺ (54/Cermak – Blue Line) Opens

Opened January 29, 2004. The main entrance to the stationhouse is on the west side of Central Park, and the auxiliary entrance/exit is located on the east side of Central Park, providing convenient access to the station. The station also serves as a connection point to five CTA bus routes – two directly at the station and three within two blocks.

Pulaski Station ☺ (54/Cermak – Blue Line) Opens

Opened January 13, 2004. The state-of-the-art, accessible station, is located at 2021 South Pulaski Road, with the main entrance on the east side of Pulaski and an auxiliary exit on Harding Avenue, one block east of Pulaski.

54/Cermak ☺ – (54/Cermak – Blue Line) Opens

Opened August 18, 2003, after 18 months of reconstruction. The station has 3 entrances: one main entrance called 54/Cermak ☺ and two auxiliary entrances, 54th Ave. and Laramie.
