How to read this report

This report shows many customers ride each route in the CTA bus system. Two types of numbers are presented in this report – ridership and productivity. Both are explained below.

How are customers counted?

Boardings are recorded using the bus farebox and fare card reader. A bus operator begins his or her duty by entering the route number into the farebox, allowing CTA to assign the ridership reported by the farebox to the proper route.

Ridership

The ridership numbers presented in this report are daily averages. Weekdays, Saturdays, and Sundays are reported separately. The averages are calculated by dividing the route's total monthly ridership for that day type by the number of such days that the route operated. For example, in September 2000 the #20 Madison  operated 20 weekdays and served 436,026 customers for an average weekday ridership of $436,026/20 = 21,803$. For routes that don't operate every day, such as the #19 United Center Express , the number of days that the route operates may be less than the actual number of days in the month.

Productivity

Productivity is the ridership on a route divided by the number of buses that operate on that route and the number of hours that they operate. That is, ridership per bus per hour.

For example, suppose route A serves 2,000 customers a day. Suppose further that route A is in operation for 10 hours, and that it takes 5 buses at a time to operate route A. Then the productivity of route A is $2,000/(10*5) = 2,000/50 = 40$. That is, on average 40 customers board every bus every hour on route A.

Productivity is a useful measure because the cost of operating a route is proportional to the number of buses on the route and the number of hours they operate.

What is route 0?

Occasionally, a bus operator may enter the route number incorrectly into the fare box. Although we have several ways to determine what the route number should have been, in some cases it is impossible to determine. In such cases, we consider the route "unspecified" and assign it the route number 0.

Why don't some routes have a productivity number reported?

Productivity is only reported for routes that have regularly scheduled service. Some routes, such as the #19 United Center Express , are only operated as needed and we do not report their productivity.

Why do we report the days in the month and the days in the average?

Usually, the number of days in the month and the number of days that we use to calculate average daily ridership are the same. On occasion, though, we experience data transmission problems that prevent us from identifying the route on which the ridership occurred. We exclude these days from the averages and divide by the number of days for which we have valid data.

Holidays

The following holidays are reported as Sundays:

- New Year's Day
- Memorial Day
- Independence Day
- Labor Day
- Thanksgiving Day
- Christmas Day

All other holidays are reported as the type of day they fall on.

July 2007

The following factors influenced July 2007 ridership.

Note: All CTA bus routes are ADA compliant. The handicap symbol  used to indicate individual ADA compliant bus routes will no longer be used in the Monthly Bus Ridership Report.

Additional North Side Bus Service

Due to rail construction that started on April 2, 2007 that reduced four tracks to three at Belmont and Fullerton stations, CTA provided additional bus service to ease congestion caused by this project.

#11 Lincoln/Sedgwick — More frequent peak direction service in the a.m. and p.m. rush periods between Downtown and Addison.

#22 Clark — More frequent service in the a.m. and p.m. rush periods in both directions between Downtown and Belmont.

#134 Stockton/LaSalle Express — More frequent service in the a.m. rush period from Sheridan/Briar to Downtown.

#135 Clarendon/LaSalle Express — More frequent service in the a.m. rush period from Irving Park to Downtown.

#147 Outer Drive Express — More frequent service in the p.m. rush period from Downtown to Devon/Broadway.

#148 Clarendon/Michigan Express — More frequent service in the p.m. rush period from Downtown to Broadway/Wilson.

#151 Sheridan — More frequent service between Diversey and Downtown.

#10 Museum of Science & Industry Bus Extends Weekend Hours April 2 through April 29, 2007. To accommodate longer spring break hours at the Museum of Science & Industry, there was more frequent and later service offered on the #10 Museum of Science & Industry route. #10 buses operated every 15 minutes through Sunday, April 29.

Improved Bus Service, Effective March 2007

The Chicago Transit Authority enhanced select existing bus routes as part of continued efforts to improve service for CTA customers. The enhancements were:

#9 Ashland buses provides more frequent midday service on weekdays from 11 a.m. to 3 p.m. with buses every 10 minutes instead of the current interval of every 12 minutes. Enhancements began Monday, March 26, 2007.

To provide consistent routing at all times on weekdays, the **#11 Lincoln/Sedgwick** route was changed to follow the same route in both directions during the rush and non-rush periods. The #11 now operates via Lincoln, Sheffield, Fullerton and Lincoln instead of using Webster and Halsted. The #11, which combines the #37 Sedgwick route with the former #11 Lincoln route, began as a 180-day experiment in December 2006.

On weekends all **#21 Cermak** buses operate to the North Riverside Park Mall in North Riverside during mall business hours instead of every other bus. The change provides more frequent service to the Mall and improves connections to Pace bus routes #304, #305, #307, #311 and #322. Changes went into effect Sunday, March 25, 2007.

Service was adjusted on the **#38 Ogden/Taylor** route to meet customer demand during the evening rush period. As a result, buses run every 15 minutes instead of every 12 minutes. This schedule began Monday, March 26, 2007.

To increase service reliability, the **#X54 Cicero Express** route was changed between the Jefferson Park Blue Line Station and Montrose and Cicero. Buses now operate via Milwaukee, Lawrence, and Cicero, instead of via Milwaukee, Montrose, and Cicero. A new bus stop was added on Lawrence at Cicero. Enhancements began Monday, March 26, 2007.

Weekday service on the **#90 Harlem** begins earlier on weekdays at 4:10 a.m. southbound from the Harlem station on the Blue Line and 4:50 a.m. northbound from the Harlem Green Line station. In addition, there is more frequent service during the first 30 minutes of weekday service with buses operating every 15 minutes instead of the previous interval of every 20 minutes. Enhancements began Monday, March 26, 2007.

Weekday service on the **#91 Austin** route begins earlier, leaving Jefferson Park southbound at 4:45 a.m. and Austin and Roosevelt at 5:30 a.m. In addition, there is more frequent service during the first 30 minutes of weekday service with buses operating every 15 minutes instead of every 20 minutes. Enhancements were effective Monday, March 26, 2007.

Saturday service on the **#147 Outer Drive Express** runs more often all day and evening to meet customer demand – every 8 minutes instead of every 10 minutes from 8 a.m. to 6 p.m. Before 8 a.m. and after 6 p.m., buses run every 10 to 12 minutes instead of every 12 to 15 minutes. The enhancement began Saturday, March 31.

Improved Bus Service, Effective December 31, 2006

The new #11 Lincoln/Sedgwick combines the #11 Lincoln route with the #37 Sedgwick/Ogden route and the new routing covers the two former routes' combined service areas offering extended service north of Fullerton for #37 customers and extended service south of North Avenue during the morning and evening rush period for #11 customers.

Additionally, during the morning and evening rush the #11 Lincoln/Sedgwick extends downtown west along Van Buren from Wells to Clinton to create a direct connection to the #38 Ogden/Taylor and the Clinton Blue Line station for service to the West Side and the Illinois Medical District.

In order to improved service for the U of Chicago, CTA implemented one new route and expanded the service for four routes that serve the University of Chicago. The new service, the #174 U of C/Garfield route, will provide direct rail station connections between the University and the Hospital and the Garfield Green Line and Garfield Red Line stations. CTA also expanded service on the #170 U of C/Midway, #171 U of C/Hyde Park, #172 U of C/Kenwood and #173 U of C/Lakeview Express.

West Side Bus Service Upgrade

Beginning in June 2006 CTA implemented five new West Side bus routes and modified eight existing routes.

New Routes:

#X9 Ashland Express, #X20 Washington/Madison Express, #38 Ogden/Taylor, #X54 Cicero Express, #127 Madison/Roosevelt Circulator.

Modified Routes: #7 Harrison, #21 Cermak, #37 Sedgwick, #52 Kedzie/California, 52A South Kedzie, #86 Narragansett/Ridgeland, #90 Harlem, #91 Austin

Route Replacement: The #25 West Cermak was eliminated and replaced by an extension of the #21 Cermak.

#192 University of Chicago Hospitals Express

This new route provides weekday express service (off-peak direction) during the morning (southbound) and evening (northbound) rush periods between Ogilvie Transportation Center, Union Station and the University of Chicago Hospitals.
