

July 2017 Performance Metrics

The purpose of CTA's monthly performance metrics is to set internal goals for agency performance to encourage improvement and establish accountability. Below is information that may be helpful in understanding the metrics for the month of July including progress that has been made in several metrics. All boxes in green demonstrate that CTA met or exceeded its monthly target and yellow boxes mean that the CTA came within 10% of the monthly performance target. Targets missed by more than 10% are indicated by a red colored box.

In July, the CTA met, exceeded or came within 10% of the agency's monthly internal targets in most categories for bus and rail, including:

- Bus Ridership;
- Total Ridership;
- Percentage of Big Gap Intervals in Bus;
- Mean Miles between Reported Rail and Bus Vehicle Defects;
- Average Daily Percent of Rail Fleet Availability;
- Average Interior Rail and Bus Clean Inspection scores; and others.

Monthly ridership goals are based on the previous year's figures. The Lollapalooza festival - with its 400,000 attendees and additional ridership - always occurs during the month of July and the 2017 ridership budget was estimated with the expectation that this festival would continue to be held in July. This year however, Lollapalooza occurred in August, creating a dip in expected ridership for the month of July.

Average Daily Percent of Bus Fleet Availability missed its target in July due to bus fleet maintenance work.
