

'L' System Slow Zone Map

November 30, 2016

Notes

Overall system slow zones in November 2016 were 9.9% for the month, an increase from the previous month. The completion of *Your New Blue* station and platform renewal work resulted in several slow zones being removed from the O'Hare branch of the Blue Line. Slow zones were also removed following the completion of track renewal work along the northern portions of the Red and Purple lines, and the completion of structure repairs on the south branch of the Green Line. Slow zones were temporarily added to the Red Line State Street Subway to allow crews to perform track renewal, replace the third rail and clean the tunnels. Slow zones were added along the Lake Street branch of the Green Line and a portion of the Brown Line due to minor track conditions.
