RED AHEAD

rpm Modernization

Construction Activity Notice

We are continuing construction on the Red and Purple Modernization (RPM) Phase One project to rebuild 100 year old rail infrastructure and improve transit service. Work will be performed that will affect your community and create inconveniences. We are committed to doing our best to minimize the impact of our work and will continue to keep you updated throughout the project.

Overnight Work

Dates: **Friday, March 13 to Monday, April 6, 2026**

Location: **Red-Purple Line:** CTA's Elevated Structure approximately between W. Cornelia Avenue and behind 4338 N. Kenmore Avenue

Work Hours: **8pm to 8am (Friday & Saturday)**
8pm to 4am (Sunday - Thursday)

Work Activity: Rail Grinding

Local Impact:

- There may be intermittent blockages to sidewalks and in the alley and garages/parking spaces underneath the CTA Tracks as the work zone moves between W. Cornelia Avenue and approximately 4338 N. Kenmore Avenue.
- The contractor recommends that any unprotected vehicles and canvas tents be relocated from underneath the CTA tracks when work takes place near or behind your residence. While an effort will be made to cover vehicles left under the tracks with fire blankets to help protect against sparks and potential debris, canvas tents that are not moved will not be protected.
- Work will not begin until 10pm on Friday, March 13.
- There will be noise while work is being performed, **including nighttime noise**:
  - General construction noise
  - Noise from rail grinding
  - Beeping from backup alarms on construction equipment and vehicles
  - Flagging horns
- There will be light & visible sparks in the work area.
