# GREEN OFFICE CHALLENGE

CTA Headquarters is participating in the City of Chicago Department of Environment's Green Office Challenge. For a 12-month period, downtown office building tenants will compete to improve the environmental performance of their businesses by practicing good "green habits" that reduce waste, energy use, and water use.

Please help CTA Headquarters rack up points during the Challenge by taking these steps:

## Use energy wisely.

- ❶ Turn off conference room and supply room lights, and task lights when not in use.
- ❷ Shut down your computer at the end of each work day.
- ❸ Unplug small electronic devices that are not in use.
- ❹ Keep window blinds lowered during sunny summer days.
- ❺ Report leaky faucets or flickering light bulbs to building management.

## Recycle responsibly.

- ❶ Place paper, envelopes, sticky notes, junk mail, cardboard, and all other paper in your recycling bin.
- ❷ Place aluminum cans, plastic containers, and glass bottles in the receptacles located in the pantry areas on each floor and in the 2nd Floor Break Room.
- ❸ Place used batteries in the battery collection containers on all odd-numbered floors.
- ❹ Place used plastic bags in the bag container located in the 2nd Floor Break Room.

## Reduce paper use.

- ❶ Scan documents for recordkeeping rather than making photocopies.
- ❷ Print and copy all documents double-sided.
- ❸ Use a projector for presentations to large groups instead of photocopying documents whenever possible.
