This facility is accessible to people with disabilities.

CTA, as project sponsor to the Federal Transit Administration (FTA), proposes to construct the Lawrence to Bryn Mawr Modernization Project. The project would reconstruct approximately 1.3 miles of the existing rail line track from Leland Avenue on the south to near Ardmore Avenue on the north. Four stations, the Lawrence, Argyle, Berwyn, and Bryn Mawr stations, would be expanded, modernized, and made accessible according to the Americans with Disabilities Act.

An Environmental Assessment (EA), which analyzes the effects of implementing the project on the physical, human, and natural environments, has recently been published for this project in accordance with federal requirements of the National Environmental Policy Act of 1969 (NEPA). All interested parties are invited to review the EA and attend the public hearing. The public hearing provides an opportunity for the public to express their views concerning the impacts and mitigation measures identified for the proposed improvements.

A copy of the EA is available through May 29, 2015 on the CTA website (transitchicago.com/RPMProject) in plain text and pdf formats, at CTA headquarters (567 W. Lake Street, 2nd Floor, Chicago, IL 60661) in regular and large print, as well as at the 46th Ward (4544 N Broadway, Chicago IL 60640) and 48th Ward (5533 N. Broadway, Chicago, IL 60640) Aldermanic offices. Hard copies of the EA are also available at the following libraries during a public review period:
