

# Make Oral Health a Priority

Prevention can be the key to a healthy smile. Routine care from your dentist can help find problems early before you need more advanced, costly care.

- Brush your teeth twice a day with a soft bristle toothbrush.
- Floss daily.
- Eat a healthy diet and limit snacks between meals.
- See your dentist regularly.

Prevention is a part of your dental plan. Services may include:

- Oral exam
- Cleanings
- Flouride Treatments
- X-Rays
- Oral Cancer Screenings
- And More

# Healthier Teeth for You And Your Children

## Tips for Children to Have a Healthy Smile

Teaching your child about dental hygiene as soon as the first tooth comes in can lead to a lifetime of healthy dental habits.

**Lead by example.**

Practice good oral health for yourself as well.

**Choose a dentist that you and your family trust.**

This will help make the experience more enjoyable for everyone.

**Remind them to brush daily.**

Remind them to brush before school and before bed.

**Encourage them to floss.**

Flossing may help prevent gum disease.

**Reduce sugar in their diets.**

Replace sugary snacks and drinks with fruit, cheese or water alternatives.

**Reward healthy habits.**

Occasionally leave treats from the "Tooth Fairy."
