INDEPENDENT AUDITOR'S REPORT

Chicago Transit Board Chicago Transit Authority Chicago, Illinois

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the business-type activities and fiduciary activities of the Chicago Transit Authority (CTA), as of and for the years ended December 31, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the CTA's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and fiduciary activities of the CTA, as of December 31, 2022 and 2021, and the respective changes in its financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* (Government Auditing Standards), issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the CTA, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the CTA's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, and design and perform audit procedures responsive to those risks. Such procedures
 include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
 statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the CTA's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the CTA's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the CTA's basic financial statements. The accompanying supplementary schedules of expenses and revenues – budget and actual for the years ended December 31, 2022 and 2021, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements.

The information has been subjected to the auditing procedures applied in the audits of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary schedules of expenses and revenues – budget and actual for the years ended December 31, 2022 and 2021 are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 27, 2023 on our consideration of the CTA's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of CTA's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the CTA's internal control over financial reporting and compliance.

Crowe LLP

Oak Brook, Illinois April 27, 2023

Introduction

The following discussion and analysis of the financial performance and activity of the Chicago Transit Authority (CTA) provide an introduction and understanding of the basic financial statements of the CTA for the fiscal years ended December 31, 2022 and 2021. This discussion was prepared by management and should be read in conjunction with the financial statements and the notes thereto, which follow this section.

Financial Highlights for 2022

- Net position totaled (\$1,002,047,000) at December 31, 2022.
- Net position increased \$962,000 in 2022 which compares to a decrease of \$133,908,000 in 2021.
- Total net capital assets were \$5,076,710,000 at December 31, 2022, a decrease of 0.93% over the balance at December 31, 2021 of \$5,124,414,000.

Financial Highlights for 2021

- Net position totaled (\$1,003,009,000) at December 31, 2021.
- Net position decreased \$133,908,000 in 2021 which compares to an increase of \$17,062,000 in 2020.
- Total net capital assets were \$5,124,414,000 at December 31, 2021, a decrease of 0.95% over the balance at December 31, 2020 of \$5,173,793,000.

The Financial Statements

The basic financial statements provide information about the CTA's business-type activities and the Qualified Supplemental Retirement Fund (fiduciary activities). The financial statements are prepared in accordance with U.S. generally accepted accounting principles as promulgated by the Governmental Accounting Standards Board (GASB).

Overview of the Financial Statements for Business-Type Activities

The financial statements consist of the (1) Statements of Net Position, (2) Statements of Revenues, Expenses, and Changes in Net Position, (3) Statements of Cash Flows, and (4) Notes to the Financial Statements. The financial statements are prepared on the accrual basis of accounting, meaning that all expenses are recorded when incurred and all revenues are recognized when earned, in accordance with U.S. generally accepted accounting principles.

Statements of Net Position

The Statements of Net Position reports all financial and capital resources for the CTA (excluding fiduciary activities). The statements are presented in the format where assets, plus deferred outflows of resources, less liabilities, less deferred inflows of resources, equals net position, formerly known as equity. Assets and liabilities are presented in order of liquidity and are classified as current (convertible into cash within one year) and noncurrent. The focus of the Statements of Net Position is to show a picture of the liquidity and health of the organization as of the end of the year.

The Statements of Net Position are designed to present the net available liquid (noncapital) assets, deferred outflows of resources, net of liabilities, and deferred inflows of resources for the entire CTA. Net position is reported in three categories:

- Net Investment in Capital Assets—This component of net position consists of all capital assets, net of accumulated depreciation, reduced by the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- Restricted—This component of net position consists of restricted assets where constraints are
 placed upon the assets by creditors (such as debt covenants), grantors, contributors, laws, and
 regulations, etc.
- Unrestricted—This component consists of net position that does not meet the definition of net investment in capital assets, or a restricted component of net position.

Statements of Revenues, Expenses, and Changes in Net Position

The Statements of Revenues, Expenses, and Changes in Net Position includes operating revenues, such as bus and rail passenger fares, rental fees received from concessionaires, and the fees collected from advertisements on CTA property; operating expenses, such as costs of operating the mass transit system, administrative expenses, and depreciation on capital assets; and nonoperating revenue and expenses, such as grant revenue, investment income, and interest expense. The focus of the Statements of Revenues, Expenses, and Changes in Net Position is the changes in net position. This is similar to net income or loss and portrays the results of operations of the organization for the entire operating period.

Statements of Cash Flows

The Statements of Cash Flows discloses net cash provided by or used for operating activities, investing activities, noncapital financing activities, and from capital and related financing activities.

Notes to Financial Statements

The Notes to Financial Statements are an integral part of the basic financial statements and describe the organization, budget, significant accounting policies, related-party transactions, deposits and investments, restrictions on deposits and investments, capital assets, leases, bonds payable, long-term liabilities, defined-benefit pension plans, other post-employment benefits, risk management, and the commitments and contingencies. The reader is encouraged to review the notes in conjunction with the management discussion and analysis and the financial statements.

Financial Analysis of the CTA's Business-Type Activities

Statements of Net Position

The following table reflects a condensed summary of assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position of the CTA as of December 31, 2022, 2021, and 2020:

Total liabilities, deferred inflows of	_				
resources, and net position	\$	6,713,993	\$	6,612,056	\$ 6,700,597

Year Ended December 31, 2022

Current assets increased by \$56,632,000 primarily due to higher capital receivable balances.

Capital assets (net) decreased by \$47,704,000 or 0.93% to \$5,076,710,000 due to increased accumulated depreciation expenses. The CTA's capital improvement projects were funded primarily by the Federal Transit Administration (FTA), U.S. Department of Transportation, the Illinois Department of Transportation (IDOT), the Regional Transportation Authority (RTA), and CTA bonds.

Other non-current assets increased by 22.77% to \$539,491,000 due to the receipt of the 2022A bond proceeds.

Current liabilities decreased 9.49% to \$898,365,000 primarily due to a decrease in the capital line of credit balance due in 2023.

Long-term liabilities increased by \$75,285,000 or 1.14% to \$6,665,790,000. The increase is due to an increase in bonds payable related to the 2022A bonds, which was partially offset by a decrease in the net pension liability associated with the employee pension plan in accordance with GASB 68.

Net investment in capital assets consists of capital assets, net of accumulated depreciation, and reduced by the amount of outstanding indebtedness attributable to the acquisition, construction, or improvement of those assets.

The net position balances restricted for other purposes include amounts restricted for two distinct purposes. The first restriction is for the assets restricted for future payments on the lease obligations. The second restriction is for the assets restricted for debt service payments.

The deficit in unrestricted net position, which represents assets available for operations, decreased 5.00% from the prior year.

Year Ended December 31, 2021

Current assets increased by \$75,411,000 primarily due to higher cash and investment balances.

Capital assets (net) decreased by \$49,379,000 or 0.95% to \$5,124,414,000 due to increased accumulated depreciation expenses. The CTA's capital improvement projects were funded primarily by the Federal Transit Administration (FTA), U.S. Department of Transportation, the Illinois Department of Transportation (IDOT), the Regional Transportation Authority (RTA), and CTA bonds.

Other non-current assets decreased by 25.75% to \$439,450,000 due to capital spending of bond proceeds.

Current liabilities increased 8.57% to \$992,540,000 primarily due to higher accrued payroll and an increase in the capital line of credit balance due in 2022.

Long-term liabilities decreased by \$43,018,000 or 0.65% to \$6,590,505,000. The decrease is due to a decrease in bonds payable, which was partially offset by an increase in the net pension liability associated with the employee pension plan in accordance with GASB 68.

Net investment in capital assets consists of capital assets, net of accumulated depreciation, and reduced by the amount of outstanding indebtedness attributable to the acquisition, construction, or improvement of those assets.

The net position balances restricted for other purposes include amounts restricted for two distinct purposes. The first restriction is for the assets restricted for future payments on the lease obligations. The second restriction is for the assets restricted for debt service payments.

The deficit in unrestricted net position, which represents assets available for operations, decreased 1.20% from the prior year.

Statements of Revenues, Expenses, and Changes in Net Position

The following table reflects a condensed summary of the revenues, expenses, and changes in net position (in thousands) for the years ended December 31, 2022, 2021, and 2020:

Table 2

Total net position, beginning of year	(1,003,009)	(869,101)	(886,163)
Total net position, end of year	\$ (1,002,047)	\$ (1,003,009)	\$ (869,101)

Year Ended December 31, 2022

Total operating revenues increased by \$54,376,000, or 19.41% primarily due to an increase in farebox and pass revenues. Farebox and pass revenue increased \$48,027,000 due to the gradual re-opening of the City of Chicago. CTA's ridership increased by 24.27% or 47.6 million rides over the prior year. CTA's average fare of \$1.19 was \$0.05 lower than 2021.

In 2022, CTA provided approximately 42,150,000 free rides, an increase of 2,414,000 or 6.07% over 2021. The Illinois General Assembly passed legislation to allow senior citizens aged 65 and over who live in the RTA service region to take free fixed route public transit rides on CTA, Metra and Pace beginning March 17, 2008. The Chicago City Council passed an ordinance to provide free CTA rides for active military personnel beginning May 1, 2008 and disabled veterans beginning August 1, 2008. The Illinois General Assembly also enacted legislation to require free rides on fixed-route transit to be made available to any Illinois resident who has been enrolled as a person with a disability in the Illinois Circuit Breaker program. In 2011, the free ride program was modified to subject the participants to a means test. Under this program seniors who do not qualify to ride free pay a reduced fare.

Total operating expenses increased \$39,158,000, or 1.86%. The increase is primarily driven by higher depreciation expense, which was partially offset by a decrease in labor expense. Depreciation expense increased \$130,848,000 primarily due to the Red-Purple Modernization project assets placed into service. Labor expense decreased by \$89,016,000 primarily due to a decrease in actuarial estimates for pension costs and the timing of open positions.

Year Ended December 31, 2021

Total operating revenues increased by \$1,682,000, or 0.60% primarily due to an increase in farebox revenue.

Farebox and pass revenue increased \$10,034,000 due to the gradual re-opening of the City of Chicago. CTA's ridership decreased by 0.77% or 1.5 million rides over the prior year. CTA's average fare of \$1.24 was \$0.06 higher than 2020.

In 2021, CTA provided approximately 39,736,000 free rides, a decrease of 13,385,000 or 25.20% over 2020. The Illinois General Assembly passed legislation to allow senior citizens aged 65 and over who live in the RTA service region to take free fixed route public transit rides on CTA, Metra and Pace beginning March 17, 2008. The Chicago City Council passed an ordinance to provide free CTA rides for active military personnel beginning May 1, 2008 and disabled veterans beginning August 1, 2008. The Illinois General Assembly also enacted legislation to require free rides on fixed-route transit to be made available to any Illinois resident who has been enrolled as a person with a disability in the Illinois Circuit Breaker program. In 2011, the free ride program was modified to subject the participants to a means test. Under this program seniors who do not qualify to ride free pay a reduced fare.

Total operating expenses increased \$138,881,000, or 7.07%. The increase is primarily driven by higher depreciation expense. Depreciation expense increased \$108,462,000 primarily due to the Red-Purple Modernization project assets placed into service.

Table 3, which follows, provides a comparison of amounts for these items:

Capital Asset and Debt Administration

Capital Assets

The CTA has \$15,037,848,000 in capital assets, including buildings, vehicles, elevated railways, signal and communication equipment, as well as other equipment as of December 31, 2022 recorded at historical cost. Net of accumulated depreciation, the CTA's capital assets at December 31, 2022 totaled \$5,076,710,000. This amount represents a net decrease (including additions and disposals, net of depreciation) of \$47,704,000, or 0.93%, over the December 31, 2021 balance primarily due to increased depreciation expenses.

The CTA has \$14,348,680,000 in capital assets, including buildings, vehicles, elevated railways, signal and communication equipment, as well as other equipment as of December 31, 2021 recorded at historical cost. Net of accumulated depreciation, the CTA's capital assets at December 31, 2021 totaled \$5,124,414,000. This amount represents a net decrease (including additions and disposals, net of depreciation) of \$49,379,000, or 0.95%, over the December 31, 2020 balance primarily due to increased depreciation expenses.

Additional information on the capital assets and construction commitments can be found in note 6 of the audited financial statements.

Debt Administration

Long-term obligations includes the Public Building Commission payable, accrued pension costs, bonds payable, certificates of participation, and fare collection purchase agreement.

At December 31, 2022, the CTA had \$51,715,000 due to the Public Building Commission, a decrease from the prior year due to principal payments. The bonds payable liability increased by a net amount of \$225,170,000 primarily due to new debt issued in 2022. Current liabilities decreased 9.49% to \$898,365,000 primarily due to a decrease in the capital line of credit balance due in 2023. Long-term liabilities increased by \$75,285,000 or 1.14% to \$6,665,790,000. The increase is primarily due to an increase in bonds payable related to the 2022A bonds, which was partially offset by a decrease in the net pension liability associated with the employee pension plan in accordance with GASB 68.

At December 31, 2021, the CTA had \$55,105,000 due to the Public Building Commission, a decrease from the prior year due to principal payments. The bonds payable liability decreased by a net amount of \$141,955,000 primarily due to debt service payments. Current liabilities increased 8.57% to \$992,540,000 primarily due to higher accrued payroll and an increase in the capital line of credit balance due in 2022. Long-term liabilities decreased by \$43,018,000 or 0.65% to \$6,590,505,000. The decrease is primarily due to a decrease in bonds payable, which was partially offset by an increase in the net pension liability associated with the employee pension plan in accordance with GASB 68.

Additional information on the debt activity can be found in notes 7, 8, 9, 10, and 11 of the audited financial statements.

2023 Budget and Economic Factors

On November 15, 2022, the CTA Board adopted the Fiscal Year 2023 operating budget of \$1.827 billion and FY 2023-27 capital budget of \$3.455 billion. After adoption, the budgets were submitted to and approved by the RTA Board (the regional oversight agency) on December 15, 2022. The 2023 operating budget maintains bus and rail service levels while the capital budget continues historic investments to modernize and improve the customer experience.

Despite the financial challenges that the CTA faces due to the residual impact of the pandemic, the 2023 Proposed Operating Budget of \$1.827 billion does not include any reductions in bus or rail service or changes to the fare structure. This budget utilizes all available sources at its disposal, including system-generated revenue, public funding, Coronavirus Response and Relief Supplemental Appropriations (CRRSAA) Act and the American Recue Plan (ARP) Act federal funding, as well as other budget balancing actions.

Over the course of the last three years the federal government has provided relief funding to individuals and businesses impacted by the COVID-19 pandemic. There have been three emergency relief packages; Coronavirus Aid Relief and Economic Security (CARES) Act, Coronavirus Response and Relief Supplemental Appropriations (CRRSAA) Act and the American Rescue Plan (ARP) Act. The RTA region, which includes Northwest Indiana, Southeast Wisconsin, as well as the CTA, Metra, and Pace, received approximately \$3.4 billion of federal relief funds. CTA was allocated \$2,090.9 million in funds; \$817.5 million in (CARES) Act funds, \$361.3 million in (CRRSAA) Act funds and \$912.1 million in (ARP) Act funds. In March 2022, the CTA was awarded \$118.4 million in ARP discretionary funds. The CTA was the only service board in the region eligible to apply for the additional ARP discretionary funding. In total, the CTA has received \$2,209.3 million in federal relief funds, which are expected to be nearly exhausted in 2025. While the CARES funds have been fully spent through January 2022. CTA expects to utilize the remaining allocation of CRRSAA and ARP funds to offset expected budget gaps through FY 2025.

The CTA is actively working with the American Public Transportation Association (APTA) and other transit agencies around the country to advocate for additional federal funding. The CTA and other transit agencies around the country continue to advocate for additional federal funding to avoid other undesirable options, which have historically included service adjustments or fare increases. Regionally, CTA is working with RTA, Metra, Pace, and other stakeholders as part of the long-range plan to identify potential funding solutions to close future budget gaps.

In 2022, building upon the success of fare promotions initiated in the spring of 2021, CTA overhauled its fare structure. In addition to permanently reducing the cost of 1-, 3-, 7-, and 30-day passes, CTA partnered with Metra and Pace to offer a new regional connect pass that, when couple with the Metra's monthly pass, will give Chicago area residents unlimited rides on all three system providing riders with greater flexibility and affordability. Through December 2022, ridership was 53.0 percent of 2019 levels compared to 50.0 percent for the same time period in 2021. Farebox revenue was 50.0 percent of 2019 levels compared to 42.0 percent for the same time period in 2021. Despite compressed ridership levels, CTA continues to operate as much service as possible.

The Proposed 2023 Operating Budget is balanced between expenses, system generated revenues, and traditional public funding, and federal COVID-19 Emergency funding.

System Generated revenue is budgeted at \$393.6 million for 2023, \$24.7 million higher than 2022 budget and \$18.5 million higher than 2022 forecast.

While fare revenue continues to be depressed, Public Funding has seen significant growth due to increased sales tax receipts. In addition, in 2021 the State restored the 5 percent cut to Public Transportation Funds (PTF). However, the State continues to impose the 50 percent reduction to the Reduced Fare Reimbursement and the 1.5 percent surcharge to the Sales Tax revenues. The Public Funding forecast for 2022 is \$1,026.2 million, which is \$103.8 million higher than the 2022 budget. The favorable increase in Public Funding is expected to continue in the near term, with 2023 Public Funding expected to be 13.2 percent higher than the 2022 budget.

The 2023 budgeted operating expenses of \$1.827 billion is \$80.8 million higher than the 2022 budget and \$228.5 million higher than the 2022 forecast. Labor, fuel, and security services expenses are approximately 82.1 percent of the increase from 2022 forecast to 2023 budget.

While there are some areas where operating expenses are increasing, the CTA continues to implement cost containment measures such as: (1) Secure pricing for a percentage of estimated fuel consumption; (2) Secure pricing for power costs at historically low market prices for 2022 through 2024, cumulative three-year savings are estimated at \$70 million versus market pricing; and (3) Aligned capital uses with capital sources.

CTA continually strived to deliver as much service as possible throughout the pandemic. But as the health crisis evolved and eventually began to wane, CTA began facing new challenges primarily related to its workforce—the impacts of the Great Resignation, competition in recruitment from other industries, and growing bus and rail operator attrition—all of which impacted CTA's ability to provide full service.

In August 2022, CTA unveiled the "Meeting the Moment: Transforming CTA's Post-Pandemic Future" Action Plan, which aims to address these challenges in the near-term, while also laying the foundation for a long-term transformation of the agency. The long-term goal of the plan, the first of its kind among major U.S. transit industries, is to align CTA service with emerging mobility patterns and ensure that CTA is a first choice of travel for many riders in the region.

CTA's 2023 budget is aligned with CTA's strategic priorities of safety, customer experience, workforce development, community investment, and promoting opportunity.

The safety and security of customers and employees is the top priority for the CTA. The Chicago Police Department (CPD) provides law enforcement for the CTA through a dedicated group of officers who are part of CPD's Public Transportation Section, as well as with the support of district police. CPD works in close coordination with CTA's Security Department each day using both historical and real-time information in directing patrols and resources to address the issue of crime on and near the system. Their efforts are supported by private security guards, as well as a network of more than 33,000 security cameras, the largest network of any U.S. transit agency. CTA initiatives started in 2022 includes the award of contracts that will double the number of unarmed security guards and provide for up to 50 new unarmed canine teams scheduled to patrol system each day, upgrades to video and communication systems in every Customer Service booth at all rail stations; and the retrofit of the existing bus fleet with new protective driver barrier doors.

CTA continues to enhance the customer experience through a number of initiatives such that include the following: (1) Optimizing rail service schedules to better reflect available workforce levels: provide customers with more consistent intervals between trains; and reduce instances of large or inconsistent gaps in service; (2) the Refresh and Renew rail station program, in 2022, crews targeted a total of 120 rail stations. Of these locations, 92 received a deep clean power wash, repainting of surfaces and upgraded LED lighting throughout. The remaining 28 locations received a power wash and fresh coat of paint, plus more extensive work, including improved platform amenities, concrete repairs, updated or replacement of old or damaged signage, and more; (3) CTA continues to work with the Chicago Department of Transportation (CDOT) on the Bus Priority Zones program aimed at improving eight major bus routes to improve bus speed and reliability. Bus Priority Zones target pinch points areas that cause delays on high ridership, frequent bus routes that span across the city; (4) Bus Vision Study, the study will examine multiple aspects of each route: the start/endpoints as well as the specific street route; the frequency and span of service; the multiple stops along the route; and the connectivity to other transit and transportation services. A key component of this initiative will be determining the best ways to provide equitable, accessible service to all parts of the city. The study is expected to be completed in 2023. (5) All Stations Accessibility Plan through 2022, targets making up to twelve rail stations vertically accessible over the next series of years; (6) Better Streets for Buses: CTA work with CDOT to complete a public outreach effort to guide a comprehensive, citywide plan for bus priority streets in Chicago. CTA and CDOT will utilize comments and additional analysis to develop the plan that will identify targeted corridors where bus enhancements are most appropriate based on ridership, bus speeds, equitable geographic coverage, and other relevant

factors. The *Better Streets for Buses* Plan will also include a toolbox of bus-priority street treatments that would be considered for application in these corridors, ranging from small adjustments of pavement markings and curbside uses, to sophisticated signal changes and bus-only lanes.

The CTA is a significant local employer with nearly 10,000 employees from the Chicagoland area, with a large majority identifying as minority. The transportation industry is in the midst of an unprecedented workforce shortage, to which the CTA is not immune. As a result, CTA has taken numerous steps and will continue to take action to address its workforce shortages resulting from a very competitive job market and extraordinarily high attrition rates since the start of the COVID-19 pandemic. This includes the implementation of almost entirely on-line and on-demand hiring process, multiple recruiting campaigns and hosting or attended over 50 job fairs in 2022, new collective bargaining agreement between CTA and the Amalgamated Transit Union that allows CTA to hire full-time bus operators.

The Infrastructure Investment and Jobs Act (IIJA) provides \$108.2 billion for public transportation capital projects across the nation over the next five years (FY 2022 through FY 2026) – the largest federal investment in public transportation in the nation's history. This is an approximately 75 percent increase in funding authorization for public transit when compared to previous federal transit program (FAST Act) levels. Included in the new federal transit funding program are funds allocated to the Chicago Urbanized Area that CTA traditionally receives each year. CTA's allocation of these formula funds represents an approximately 37 percent increase over previous authorized levels.

In addition, the federal IIJA law provides for new and expanded discretionary programs that are available for eligible projects associated with low or no emissions vehicles, buses and bus facilities, accessibility of transit facilities, and other major capital investments.

In 2023 CTA will continue to pursue long-term priorities, which focus on improving service to customers. The Agency will continue to make extensive investments in its bus and rail system, along with modernizing its infrastructure.

The Red-Purple Modernization (RPM) project is one of six major construction projects the CTA has embarked on; RPM is a \$2.1 billion investment to modernize and add capacity to the CTA's busiest rail corridor. CTA awarded a contract to the Walsh-Fluor Design Build Team in 2018; CTA unveiled the Red-Purple Bypass in 2021 and began demolition and reconstruction of adjacent Red and Purple Line track structures north of Belmont; Lawrence to Bryn Mawr area construction of four stations and reconstruction of 6 miles of track, structure, and viaducts began in 2022 and will continue through 2024; Corridor Signal testing continues, installation of new signal system on 23 miles of track to be also completed in 2024; Project Completion estimated 2025; In addition, CTA continues to move forward with its planning for the proposed \$3.6 billion **Red Line Extension** (RLE) project between 95th and 130th streets. The proposed 5.3-mile extension would include four new, fully accessible stations at 103rd Street, 111th Street, Michigan Avenue and 130th Street. In 2018, the CTA selected a preferred alignment for the extension, and awarded a Program Management Contract. The Program Manager oversees final environmental review and preliminary engineering work necessary to ultimately seek federal funding for the project. In 2019, the agency committed \$310 million to advance the project beyond Project Development phase. In 2020, RLE entered the Project Development Phase. In 2022, CTA published a Supplemental Environmental Assessment (EA) and entered project into Engineering Phase. Also, in 2022 the Chicago City Council approved CTA's Transit TIF \$959M local funds for RLE. Furthermore, as Your New Blue (YNB) comes to an end with its final Phase 4 Signal improvements from Jefferson Park to O'Hare on the Blue Line CTA will continue to rehab other YNB stations throughout the line, CTA will begin reconstruction of the Harlem Bus Bridge at the O'Hare Harlem Station (FY2022-2024); it will also replace canopies at the Montrose and Irving Park Stations in addition to adding two new Blue Line substations and providing for traction power improvements along the O'Hare Branch. CTA will also continue with its two new initiatives to modernize and improve the rail system: The Green Line Improvements and the Forest Park Branch on the Blue Line. The Green Line Improvements will enhance its infrastructure including track, and station elements

throughout the line system. The Forest Park - Blue Line Upgrades project is the first of four phases of the Forest Park Branch. It will provide for new track-work from Halsted to Illinois Medical District, rehabilitation of the Racine station making it ADA compliant, advanced utility work, and a new substation and traction power equipment at Hermitage. Continuing the agency's efforts to modernize and improve operations and delivery of service, the CTA is planning a project to modernize two critical functions: Control Center, as well as Training and Instruction. Current Control Center is outdated and in need of costly repairs, training for front-line workers occurs throughout the agency and both have significant space constraints. As a result, CTA is starting the planning for the building of a new state-of-art facility with more space, modern technology, and adequate meeting space during major events or emergencies. CTA's intention is to also start the planning for a centralized training facility that enhances the training experience for front-line employees.

Major projects completed or substantially underway in 2022:

Vehicles – As of 2022, CTA received the first 100 new 8350 Series buses from the current bus contract to replace aged buses. CTA issued Notice To Proceed (NTP) for the Mid-life Bus Overhaul for (100) 4300 Series bus contract; On the rail system CTA currently has received first 46 new 7000 Series rail cars to replace aged railcars (this project has been delayed due to COVID-19 pandemic), CTA also continues with the 5000-Series overhaul (714 cars) scheduled over 5 years (2021-2025) as of December 2022 twohundred eight (208) cars have been rehabilitated. Production also continued through 2022 for the design and build of 4 Diesel Locomotives. Infrastructure - Major construction continued through 2022 on the new Red-Purple Modernization CTA began demolition and reconstruction of stations adjacent to Red and Purple Line track structures north of Belmont; Also in 2022, CTA began renovation design on four (4) All Stations Accessibility Program (ASAP) stations California, Austin, Montrose and Racine Station; Design has also commenced for the State & Lake Loop Station project led by CDOT; In addition the City of Chicago also began construction for new Green Line station located at Damen/Lake; Also in 2022 CTA has begun construction for the Non-Revenue Vehicle Maintenance Facility. Renewal of Track and Structure -CTA continues its efforts to improve and enhance the system with the scheduled multi-year programs Fast Tracks and Safe & Secure. Work has been substantially completed on Blue Line electrical power upgrades at the Kedvale, Edmunds, and Sacramento substations. Also, in 2022 obtained substantial completion for the Signal Upgrades from Jefferson Park to O'Hare on the Blue Line; CTA continues construction work on two new substations and new tie house at Barry, Damen and Canal on the Blue line. Design was completed for the Congress Line track improvement which is part of CTA's Forest Park Blue Line Upgrades Project. Phase I will provide for new track-work from Halsted to IMD, an accessible station at Racine, advanced utility work, and a new substation and traction power equipment upgrades at Hermitage. This work will enhance service quality via speed, reliability, and comfort, and improve operational efficiency on the Forest Park Branch of CTA's rapid transit Blue Line service.

Among the capital projects to continue or begin in FY 2023:

Vehicles - CTA anticipates to award an Option to the current Electric Bus Contract to purchase an additional 22 electric buses with charging infrastructure; Also, by mid-2023 the Authority anticipates the second delivery of the next 100 buses (Option1) of the current contract to purchase up to 600 new buses. The agency also expects to start a Mid-life Overhaul on the Artic 4300 Series (100) buses by mid-2023 with completion expected by 2024; In addition, CTA also anticipates to award contract for the Life-extension Overhaul on up to 430 of the 1000 Series buses; CTA will also expect to receive seventy-eight (78) 7000 Series production cars by year end of 2023. In addition, the agency continues to progress with Phase Two of the Quarter-life Overhaul Program for the 5000-Series Rail Cars (714 cars), Second Phase began mid-year 2021 and scheduled to continue through 2025. Infrastructure – In FY2023, CTA will continue and complete design on the California, Cottage Grove and Montrose Stations; General Contractor Notice to Proceed NTP is projected for renovation of Austin and Racine Stations to accommodate elevators and other ADA related upgrades; In addition CTA plans to initiate design on six (6) additional ASAP stations Oak Park, Ridgeland, Irving Park, Belmont, Grand and Division; The Non-revenue Shop construction began

in 2022 and is expected to be completed in the fourth quarter of 2023. **Renewal of Track and Structure** – CTA estimates final construction completion in 2023 for the Substation Roof replacement, The Skokie Shops Electronic and Hydraulic Repair Room Expansions and for the Belmont Track Crossover Replacement. Design is also estimated to be completed in early 2023 for Lake Street Bridge Replacement with construction to commence in late 2023 this project is being done in coordination with Chicago Department of Transportation.

Many capital projects include distinctive architecture and public art from notable Chicago and international artists, part of ongoing efforts to make public transportation more attractive and to highlight communities.

Legislation

On January 18, 2008, Public Act 95-708 became law. This legislation provides funding for CTA operations, pension and retiree healthcare from four sources: 1) a 0.25 percent increase in the RTA sales tax in each of the six counties, 2) a \$1.50 per \$500 of transfer price increase in the City of Chicago's real estate transfer tax, 3) an additional 5% state match on the real estate transfer tax and all sales tax receipts except for the replacement and use tax, and 4) a 25% state match on the new sales tax and real estate transfer tax. The proceeds from the increase in the RTA sales tax will be used to fund some existing programs such as ADA paratransit services, as well as some new initiatives such as the Suburban Community Mobility Fund and the Innovation, Coordination and Enhancement Fund. The balance of these additional proceeds along with the 5% state match on: existing, additional sales tax and real estate transfer tax; and the state 25% match on the new sales tax will be divided among the CTA (48%), Metra (39%) and Pace (13%) according to the statutory formula. On February 6, 2008, the Chicago City Council authorized an increase in the real estate transfer tax in the amount of \$1.50 per \$500 of transfer price, the proceeds of which (after deducting costs associated with collection) will be entirely directed to the CTA. Additionally the state 25% match on the real estate transfer tax will be entirely directed to CTA as well.

Pursuant to Public Act 94-839, the CTA was required to make contributions to its retirement system in an amount which, together with the contributions of its participants, interest earned on investments and other income, were sufficient to bring the total assets of the retirement system up to 90% of its total actuarial liabilities by the end of fiscal year 2058. This legislation also required the RTA to monitor the payment by the CTA of its required retirement system contributions. If the CTA's contributions were more than one month overdue, the RTA would pay the amount of the overdue contributions directly to the trustee of the CTA's retirement system out of moneys otherwise payable by the RTA to the CTA.

Public Act 95-708 modified this directive slightly and added a number of other requirements. First, a new Retirement Plan Trust was created to manage the Retirement Plan assets. Second, CTA contributions and employee contributions were increased. Third, in addition to the requirement that the Retirement Plan be 90% funded by 2059, there is a new requirement that the Retirement Plan be funded at a minimum of 60% by September 15, 2009. Any deviation from the stated projections could result in a directive from the State of Illinois Auditor General to increase the CTA and employee contributions. Fourth, Public Act 95-708 authorized the CTA to issue \$1.349 billion in pension obligation bonds to fund the Retirement Plan. Finally, the legislation provides that CTA will have no future responsibility for retiree healthcare costs after the bond funding.

Public Act 95-708 also addressed retiree healthcare. In addition to the separation between pension and healthcare that was mandated by Public Act 94-839, Public Act 95-708 provides funding and benefit changes to the retiree healthcare benefits. First, all CTA employees will be required to contribute 3% of their compensation into the new retiree healthcare trust. Second, all employees will be eligible for retiree healthcare, but after January 18, 2008, only those employees who retire at or after the age of 55 with 10 years of continuous service will actually receive the benefit. Third, retiree, dependent and survivor premiums can be raised up to 45% of the premium cost. Finally, the CTA has been given the authorization

to issue \$640 million in pension obligation bonds to fund the healthcare trust. Subsequent to the 2008 legislation, the Board of Trustees of the Retiree Healthcare Trust amended the eligibility requirements to receive postemployment health benefits. Effective January 1, 2018, employees will be eligible for retiree healthcare at or after the age of 65 with 10 years of continuous service or at or after age 55 or at pension start date (whichever is later) with 20 years of continuous service.

The pension and retiree healthcare bonds were issued on August 6, 2008 and \$1.1 billion was deposited in the pension trust and \$528.8 million was deposited in the healthcare trust.

In August 2021, Illinois House Bill 1428 was signed into law. This bill allows the Board of Trustees of the Retiree Healthcare Trust to lower the active employee contribution rate from 3% of compensation to 1% of compensation. After consultation with the Trust's actuary, the Board of Trustees lowered the contribution rate to 1%, beginning on January 1, 2022.

Contacting the CTA's Financial Management

This financial report is designed to provide our bondholders, patrons, and other interested parties with a general overview of the CTA's finances and to demonstrate the CTA's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Chicago Transit Authority's Chief Financial Officer, 567 W. Lake Street, Chicago, IL 60661.

NOTE 1 - ORGANIZATION

The Chicago Transit Authority (CTA) was formed in 1945 pursuant to the Metropolitan Transportation Authority Act passed by the Illinois Legislature. The CTA was established as an independent governmental agency (an Illinois municipal corporation) "separate and apart from all other government agencies" to consolidate Chicago's public and private mass transit carriers. The City Council of the City of Chicago has granted the CTA the exclusive right to operate a transportation system for the transportation of passengers within the City of Chicago.

The Regional Transportation Authority Act (the Act) provides for the funding of public transportation in the six-county region of Northeastern Illinois. The Act established a regional oversight board, the Regional Transportation Authority (RTA), and designated three service boards (CTA, Commuter Rail Board, and Suburban Bus Board). The Act requires, among other things, that the RTA approve the annual budget of the CTA, that the CTA obtain agreement from local governmental units to provide an annual monetary contribution of at least \$5,000,000 for public transportation, and that the CTA (collectively with the other service boards) finance at least 50% of its operating costs, excluding depreciation and certain other items, from system-generated sources on a budgetary basis.

<u>Financial Reporting Entity</u>: As defined by U.S. generally accepted accounting principles (GAAP), the financial reporting entity consists of a primary government, as well as its component units, which are legally separate organizations for which the elected officials of the primary government are financially accountable. Financial accountability is defined as:

- 1) Appointment of a voting majority of the component unit's board and either (a) the ability to impose will by the primary government or (b) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the primary government; or
- 2) Fiscal dependency on the primary government.

Based upon the application of these criteria, the CTA is not a component unit of any other entity.

The CTA participates in the Employees' Retirement Plan, which is a single-employer, defined benefit pension plan covering substantially all full-time permanent union and nonunion employees. The Employees' Plan is governed by Illinois state statute (40 ILCS 5/22-101). The fund, established to administer the Employees' Retirement Plan, is not a fiduciary fund or a component unit of the CTA. This fund is a legal entity separate and distinct from the CTA. This plan is administered by its own board of trustees comprised of 5 union representatives, 5 representatives appointed by the CTA, and a professional fiduciary appointed by the RTA. The CTA has no direct authority and assumes no fiduciary responsibility with regards to the Employees' Retirement Plan. Accordingly, the accounts of this fund are not included in the accompanying financial statements.

The CTA participates in the Retiree Health Care Trust (RHCT), which provides and administers health care benefits for CTA retirees and their dependents and survivors. The Retiree Health Care Trust was established by Public Acts 94-839 and 95-708. The RHCT is not a fiduciary fund or a component unit of the CTA. This trust is a legal entity separate and distinct from the CTA. This trust is administered by its own board of trustees comprised of three union representatives, three representatives appointed by the CTA and a professional fiduciary appointed by the RTA. The CTA has no direct authority and assumes no fiduciary responsibility with regards to the RHCT. Accordingly, the accounts of this fund are not included in the accompanying financial statements.

NOTE 1 - ORGANIZATION (Continued)

The CTA administers supplemental retirement plans that are separate, defined benefit pension plans for selected individuals. The supplemental retirement plans provide benefits to employees of the CTA in certain employment classifications. The supplemental retirement plans consist of the: (1) closed board member plan (Board), (2) closed (Non-Qualified) supplemental plan for members retired or terminated from employment before March 2005, including early retirement incentive, and (3) closed (Qualified) supplemental plan for members retiring or terminating after March 2005. The CTA received qualification under Section 401(a) of the Internal Revenue Code for the supplemental plan and established a qualified trust during 2005 for members retiring after March 2005 (Qualified Supplemental Retirement Plan). The Qualified plan is administered by a committee that is appointed by the Board of Directors of the CTA. In addition, there is a financial burden as the CTA has the obligation to make contributions to the Qualified plan. Based on this, the trust for the Qualified plan is reported as a fiduciary component unit. Whereas the activities for the Non-Qualified and Board Plans are included in the financial statements of the CTA's business-type activities.

The CTA is not considered a component unit of the RTA because the CTA maintains separate management, exercises control over all operations, and is fiscally independent from the RTA. Because governing authority of the CTA is entrusted to the Chicago Transit Board, comprising four members appointed by the Mayor of the City of Chicago and three members appointed by the Governor of the State of Illinois, the CTA is not financially accountable to the RTA and is not included as a component unit in the RTA's financial statements, but is combined in pro forma statements with the RTA, as statutorily required.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

<u>Basis of Accounting</u>: The basic financial statements provide information about the CTA's business-type and fiduciary (Qualified Supplemental Retirement Plan) activities. Separate statements for each category, business-type and fiduciary, are presented. The basic financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. On an accrual basis, revenues from operating activities are recognized in the fiscal year that the operations are provided; revenue from grants is recognized in the fiscal year in which all eligibility requirements have been satisfied; and revenue from investments is recognized when earned.

The financial statements for the CTA's business-type activities are used to account for the CTA's activities that are financed and operated in a manner similar to a private business enterprise. Accordingly, the CTA maintains its records on the accrual basis of accounting. Under this basis, revenues are recognized in the period in which they are earned, expenses are recognized in the period in which they are incurred, depreciation of assets is recognized, and all assets and liabilities associated with the operation of the CTA are included in the Statements of Net Position.

The principal operating revenues of the CTA are bus and rail passenger fares. The CTA also recognizes as operating revenue the rental fees received from concessionaires, the fees collected from advertisements on CTA property, and miscellaneous operating revenues. Operating expenses for the CTA include the costs of operating the mass transit system, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Nonexchange transactions, in which the CTA receives value without directly giving equal value in return, include grants from federal, state, and local governments. On an accrual basis, revenue from grants is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, and expenditure requirements, in which the resources are provided to the CTA on a reimbursement basis.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The financial statements for the fiduciary activities are used to account for the assets held by the CTA in trust for the payment of future retirement benefits under the Qualified Supplemental Retirement Plan. The assets of the Qualified Supplemental Retirement Plan cannot be used to support CTA operations.

<u>Cash and Cash Equivalents</u>: Cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with maturities dated within three months or less of year-end.

<u>Cash and Cash Equivalents Restricted for Damage Reserve</u>: The CTA maintained cash and investment balances to fund the annual injury and damage obligations that are required to be designated under provisions of Section 39 of the Metropolitan Transportation Authority Act.

<u>Investments</u>: Investments, including the supplemental retirement plan assets, are reported at fair value based on quoted market prices and valuations provided by external investment managers.

Chapter 30, Paragraph 235/2 of the Illinois Compiled Statutes authorizes the CTA to invest in obligations of the United States Treasury and United States agencies, direct obligations of any bank, repurchase agreements, commercial paper rated within the highest classification set by two standard rating services, or money market mutual funds investing in obligations of the United States Treasury and United States agencies.

<u>Unbilled Work In Progress</u>: Unbilled work in progress represents grant expense that has not been billed to the funding agencies as of year-end. This would include contract retentions, accruals and expenditures for which, due to requisitioning restrictions of the agencies or the timing of the expenditures, reimbursement is requested in a subsequent period.

<u>Materials and Supplies</u>: Materials and supplies are stated at average cost and consist principally of maintenance supplies and repair parts.

Other Noncurrent Assets: Other noncurrent assets include (a) cash and claims to cash that are restricted as to withdrawal or use for other than current operations, (b) resources that are designated for expenditure in the acquisition or construction of noncurrent assets, or (c) resources that are segregated for the liquidation of long-term debts.

Bond proceeds held by trustee: During various fiscal years, the CTA issued Capital Grant Receipt Revenue Bonds. The proceeds from each sale were placed in trust accounts restricted for financing the costs of capital improvement projects associated with each issuance. For more detailed information see Note 9.

<u>Leases Receivable</u>: The CTA is a lessor for leases of office and retail space and the commercial wireless system. The CTA recognizes a lease receivable and a deferred inflow of resources in the Statements of Net Position.

At the commencement of a lease, the CTA initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Key estimates and judgments include how the CTA determines (a) the discount rate it uses to discount the expected lease receipts to present value, (b) lease term, and (c) lease receipts. The CTA uses its estimated incremental borrowing rate as the discount rate for leases. The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

The CTA monitors changes in circumstances that would require a remeasurement of its leases, and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

<u>Capital Assets</u>: All capital assets are stated at cost. Capital assets are defined as assets which (1) have a useful life of one year or more and a unit cost of more than \$5,000, (2) have a unit cost of \$5,000 or less, but which are part of a network or system conversion, or (3) were purchased with grant money. The cost of maintenance and repairs is charged to operations as incurred.

Interest cost capitalized prior to the implementation of GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, is amortized on the same basis as the related asset is depreciated. The CTA implemented Statement No. 89 on January 1, 2021; as a result of that implementation, interest cost incurred before the end of a construction period is recognized as an expense in the period in which the cost is incurred.

The provision for depreciation of transportation property and equipment is calculated under the straight-line method using the respective estimated useful lives of major asset classifications, as follows:

	Years
Buildings	10-40
Elevated structures, tracks, tunnels, and power system	20-40
Transportation vehicles:	
Bus	12
Rail	25
Signal and communication	10-20
Other equipment	3-10

A full month's depreciation is taken in the month after an asset is placed in service. When property and equipment are disposed, depreciation is removed from the respective accounts and the resulting gain or loss, if any, is recorded.

The transportation system operated by the CTA includes certain facilities owned by others. The CTA has the exclusive right to operate these facilities under the terms of the authorizing legislation and other agreements.

Included with the CTA's other equipment capital assets, the CTA has capitalized an intangible asset, computer software. The CTA follows the same capitalization policy and estimated useful life for its intangible asset as it does for its other equipment capital assets. The CTA also amortizes the intangible asset utilizing the straight-line method.

<u>Deferred Outflows of Resources</u>: A deferred outflow of resources is a consumption of net assets by the government that is applicable to a future reporting period.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

<u>Deferred Inflows of Resources</u>: A deferred inflow of resources is an acquisition of net assets by the government that is applicable to a future reporting period.

<u>Self-insurance</u>: The CTA is self-insured for various risks of loss, including public liability and property damage, workers' compensation, and health benefit claims, as more fully described in note 15. A liability for each self-insured risk is provided based upon the present value of the estimated ultimate cost of settling claims using a case-by-case review and historical experience. A liability for claims incurred but not reported is also provided.

<u>Compensated Absences</u>: Substantially all employees receive compensation for vacations, holidays, illness, and certain other qualifying absences. The number of days compensated for the various categories of absence is based generally on length of service. Vacation leave that has been earned but not paid has been accrued in the accompanying financial statements. Compensation for holidays, illness, and other qualifying absences is not accrued in the accompanying financial statements because rights to such compensation amounts do not accumulate or vest.

Under GASB Statement No. 16, *Accounting for Compensated Absences*, applicable salary-related employer obligations are accrued in addition to the compensated absences liability. This amount is recorded as a portion of the accrued payroll, vacation pay, and related liabilities on the Statements of Net Position.

<u>Bond Premiums</u>: Bond premiums are amortized over the life of the bonds using the bonds outstanding method, which is materiality consistent with the effective interest method.

<u>Pensions:</u> For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Pension Plans (the Plans) and additions to/deductions from the Plans fiduciary net position have been determined on the same basis as they are reported by the Plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. For more detailed information see Notes 12 and 13.

Net Position: Net position is displayed in three components as follows:

Net Investment in Capital Assets – This consists of capital assets, net of accumulated depreciation, less the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted – This component of net position consists of legally restricted assets by outside parties or by law through constitutional provisions or enabling legislation. When both restricted and unrestricted resources are available for use, generally it is the CTA's policy to use restricted resources first, and then unrestricted resources when they are needed.

 ${\it Unrestricted}$ – This component of net position that does not meet the definition of "restricted" or "net investment in capital assets."

Retirement Plan: The CTA has a retirement plan for all nontemporary, full-time employees with service greater than one year. Pension expense is recorded on an annual basis based on the results of an actuarial valuation in conformity with GASB 67 and 68. For more detailed information see Note 12.

<u>Fare Box and Pass Revenues</u>: Fare box and pass revenues are recorded as revenue at the time services are performed.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

<u>Classification of Revenues</u>: The CTA has classified its revenues as either operating or nonoperating. Operating revenues include activities that have the characteristics of exchange transactions, including bus and rail passenger fares, rental fees received from concessionaires, the fees collected from advertisements on CTA property, and miscellaneous operating revenues. Nonoperating revenue includes activities that have the characteristics of nonexchange transactions, such as federal, state, and local grants and contracts

<u>Estimates</u>: The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

<u>Reclassifications</u>: Certain amounts from the prior year have been reclassified to conform to the current year presentation. The reclassifications had no effect on net position or change in net position.

Implementation of New Accounting Standards:

In June 2017, the GASB issued Statement No. 87, *Leases*. This statement establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The provisions of this Statement were implemented during fiscal year 2022. The fiscal year 2021 column was restated to conform to the provisions of GASB 87. After implementation, the CTA's contract with the Public Building Commission of Chicago (PBC) is reported as a financed purchase instead of as a lease because the contract transfers ownership of the premises to the CTA by the end of the contract. See Note 8 for further information. The CTA is the lessor in numerous contracts that convey control of the right to use property owned by the CTA to other parties. After implementation, a lease receivable and deferred inflow of resources is recognized related to these leases. The implementation had no effect on beginning net position.

In May 2019, the GASB issued Statement No. 91, *Conduit Debt Obligations*. This Statement clarifies the existing definition of a conduit debt obligation; establishes that a conduit debt obligation is not a liability of the issuer; sets standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improves required note disclosures. The provisions of this Statement became effective for the CTA during fiscal year 2022 with no material impact for the CTA.

In January 2020, the GASB issued Statement No. 92, *Omnibus 2020*. The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics and includes specific provisions about reporting of intra-entity transfers of assets between a primary government employer and a component unit defined benefit pension plan or defined benefit OPEB plan, the applicability of Statements 73 and 74 to reporting assets accumulated for postemployment benefits, the applicability of Statement 84 to postemployment benefit arrangements, measurement of liabilities and assets related to asset retirement obligations in a government acquisition, and reference to nonrecurring fair value measurements of assets and liabilities in authoritative literature. The provisions of this Statement that were not effective upon issuance became effective for the CTA during 2022 with no material impact for the CTA.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In June 2020, the GASB issued Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32. The primary objectives of this Statement are to (1) increase consistency and comparability related to the reporting of fiduciary component units when a potential component unit does not have a governing board and the primary government performs those duties; (2) mitigate costs associated with reporting; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans. The provisions of this Statement that were not effective upon issuance became effective for the CTA during 2022 with no material impact for the CTA.

Future Pronouncements:

In April 2020, the GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. The primary objective of this statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). In addition, the statement provides guidance for accounting and financial reporting for availability payment arrangements (APAs). This statement is effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter.

In May 2020, the GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements*. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements for government end users. This statement is effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter.

In April 2022, the GASB issued Statement No. 99, *Omnibus 2022*. The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. The requirements related to leases, public-private and public-public partnerships, and subscription-based information technology arrangements are effective for the CTA's fiscal year ended December 31, 2023. The requirements related to financial guarantees and the classification and reporting of derivative instruments are effective for the CTA's fiscal year ended December 31, 2024.

In June 2022, the GASB issued Statement No. 100, Accounting Changes and Error Corrections. The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The requirements of this Statement are effective for the CTA's fiscal year ended December 31, 2024.

In June 2022, the GASB issued Statement No. 101, *Compensated Absences*. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The requirements of this Statement are effective for the CTA's fiscal year ended December 31, 2024.

Management has not yet determined the impact of these statements on the basic financial statements.

NOTE 3 - BUDGET AND BUDGETARY BASIS OF ACCOUNTING

The CTA is required under Section 4.01 of the Regional Transportation Authority Act to submit for approval an annual budget to the RTA by November 15 prior to the commencement of each fiscal year. The budget is prepared on a basis consistent with GAAP, except for the exclusion of certain income and expenses. For 2022 and 2021, these amounts include provision for injuries and damage in excess of (or under) budget, depreciation expense, pension expense in excess of pension contributions, actuarial adjustments, revenue from leasing transactions, interest income and expense from sale/leaseback transactions, and capital contributions.

The Act requires that expenditures for operations and maintenance in excess of budget cannot be made without approval of the Chicago Transit Board. All annual appropriations lapse at fiscal year-end. The RTA, in accordance with the RTA Act, has approved for budgetary basis presentation the CTA's recognition of the amount of the injury and damage reserve and pension contribution, funded by the RTA in the approved annual budget. Provisions in excess of the approved annual budget that are unfunded are excluded from the recovery ratio calculation.

Prior to 2009, the RTA funded the budgets of the service boards rather than the actual operating expenses in excess of system-generated revenue. Under this funding policy favorable variances from budget remain as unearned operating assistance to the CTA, and can be used in future years with RTA approval. At the end of 2009, the RTA changed the funding policy to reflect actual collections rather than the budgeted funding marks. This new policy shifts the risk of shortfalls from actual collections to the respective service boards.

The RTA approves the proposed budget based on a number of criteria:

- That the budget is in balance with regard to anticipated revenues from all sources, including
 operating subsidies and the costs of providing services and funding operating deficits;
- That the budget provides for sufficient cash balances to pay, with reasonable promptness, costs and expenses when due;
- That the budget provides for the CTA to meet its required system-generated revenue recovery ratio;
 and
- That the budget is reasonable, prepared in accordance with sound financial practices and complies with such other RTA requirements as the RTA Board of Directors may establish.

The RTA monitors the CTA's performance against the budget on a quarterly basis. If, in the judgment of the RTA, this performance is not substantially in accordance with the CTA's budget for such period, the RTA shall so advise the CTA and the CTA must within the period specified by the RTA, submit a revised budget to bring the CTA into compliance with the budgetary requirements listed above.

In late 2021, the Illinois legislature granted temporary recovery ratio relief for fiscal years 2021, 2022, and 2023 due to the ongoing pandemic. Per Public Act 102-0678, the aggregate of all projected fare revenues from such fares and charges received in fiscal years 2021, 2022, and 2023 may be less than 50% of the aggregate costs of providing such public transportation in those fiscal years.

NOTE 4 - BUDGETED PUBLIC FUNDING FROM THE REGIONAL TRANSPORTATION AUTHORITY AND THE STATE OF ILLINOIS

Most of the CTA's public funding for operating needs is funneled through the RTA. The RTA allocates funds to the service boards based on a formula included in the 1983 Regional Transportation Authority Act and the 2008 Legislation (P.A. 95-0708) approved by Illinois lawmakers to provide increased operating funds to the Northeastern Illinois Transit System. Other funds are allocated based on the RTA's discretion.

The funding "marks" represent the amount of funds that each Service Board can expect to receive from the RTA and other sources.

The components of the operating assistance from the RTA were as follows (in thousands of dollars):

		 2022	2021
83 Legislation	Illinois state sales tax allocation	\$ 476,787	\$ 437,632
83 Legislation	RTA discretionary funding and other	308,474	252,325
08 Legislation	Illinois state sales tax allocation & PTF	181,017	182,144
08 Legislation	Real estate transfer tax	79,926	71,118
08 Legislation	Innovation, Coordination and Enhancement		
	funding (ICE)	 7,667	 7,175
Final op	perating assistance	\$ 1,053,871	\$ 950,394

Reduced-fare subsidies from the State of Illinois were \$14,606,000 and \$14,606,000 during the years ended December 31, 2022 and 2021, respectively, for discounted services provided to the elderly, disabled, or student riders.

NOTE 5 - CASH, CASH EQUIVALENTS, AND INVESTMENTS

Cash, Cash Equivalents, and Investments of the Business-type Activities

Cash, cash equivalents, and investments are reported in the Statements of Net Position of the business-type activities as follows as of December 31, 2022 and 2021 (in thousands of dollars):

	 2022	 2021
Current assets:	 	 _
Cash and cash equivalents	\$ 90,134	\$ 166,807
Restricted for damage reserve	78,255	66,529
Investments	43,599	44,959
Noncurrent assets:		
Bond proceeds held by trustee	523,856	420,722
Held by trustee for supplemental retirement plan	885	775
Total	\$ 736,729	\$ 699,792

NOTE 5 - CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)

Cash, cash equivalents, and investments of the business-type activities consist of the following as of December 31, 2022 and 2021 (in thousands of dollars):

	2022		2021	
Investments:				_

Total Investments		657,937		630,668
Deposits with financial institutions		78,792		69,124
Total deposits and investments	\$	736,729	\$	699,792

<u>Investment Policy</u>: CTA investments are made in accordance with the Public Funds Investment Act (30 ILCS 235/1) (the Act) and, as required under the Act, the Chicago Transit Authority Investment Policy (the Investment Policy). The Investment Policy does not apply to the Employees Retirement Plan or the Retiree Healthcare Trust, which are separate legal entities. Additionally, the CTA Investment Policy does not apply to the Supplemental Retirement Plan, which is directed by the Employee Retirement Review Committee. In accordance with the Act and the Investment Policy, CTA can invest in the following types of securities:

- United States Treasury Securities (Bonds, Notes, Certificates of Indebtedness, and Bills). CTA may invest in obligations of the United States government, which are guaranteed by the full faith and credit of the United States of America as to principal and interest.
- 2. United States Agencies. CTA may invest in bonds, notes, debentures, or other similar obligations of the United States or its agencies. Agencies include: (a) federal land banks, federal intermediate credit banks, banks for cooperative, federal farm credit bank, or other entities authorized to issue debt obligations under the Farm Credit Act of 1971, as amended; (b) federal home loan banks and the federal home loan mortgage corporation; and (c) any other agency created by an act of Congress.
- 3. Bank Deposits. CTA may invest in interest-bearing savings accounts, interest-bearing certificates of deposit, or interest-bearing time deposits or other investments constituting direct obligations of any bank as defined by the Illinois Banking Act (205 ILCS 5/1 et seq.), provided that any such bank must be insured by the Federal Deposit Insurance Corporation (the FDIC) and no more than 33.33% of the maximum portfolio percentage amount allowed by the chart in Section 2B of the Investment Policy for investment in Certificates of Deposit may be invested in Certificates of Deposit of a single issuer of such Certificates.
- 4. Commercial Paper. CTA may invest in short-term obligations (commercial paper) of corporations organized in the United States with assets exceeding \$500 million, provided that: (a) such obligations are at the time of purchase at the highest classification for short-term obligations and one of the three highest classifications for long-term obligations established by at least two standard rating services and which mature no later than 3 years from the date of purchase; (b) such purchases do not exceed 10% of the corporation's outstanding obligations; (c) no more than one-third of the Authority's funds may be invested in short term obligations of corporations; and (d) no more than 25% of the maximum portfolio percentage allowed by the chart in Section 2B of the Investment Policy for all Corporate Obligations may be invested in Corporate Obligations of a single issuer.

NOTE 5 - CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)

- 5. Mutual Funds. CTA may invest in mutual funds which invest exclusively in United States government obligations and agencies.
- 6. Investment Pool. CTA may invest in a Public Treasurers' Investment Pool created under Section 17 of the State Treasurer Act (15 ILCS 505/17).
- 7. Repurchase Agreements. CTA may invest in repurchase agreements for securities that are authorized investments under the Investment Policy, subject to all of the requirements of the Act, provided that: (a) the securities shall be held by a custodial bank authorized by the Chicago Transit Board; and (b) each transaction must be entered into under terms of a master repurchase agreement in a form authorized by the Chicago Transit Board.
- 8. Interest-bearing bonds of any county, township, city, village, incorporated town, municipal corporation, or school district, of the State of Illinois, of any other state, or of any political subdivision or agency of the State of Illinois or of any other state, whether the interest earned thereon is taxable or tax-exempt under federal law. The bonds shall be registered in the name of the Authority or held under a custodial agreement at a bank. The bonds shall be rated, at the time of purchase, no lower than 'A' category by at least two accredited rating agencies with nationally recognized expertise in rating bonds of states and their political subdivisions. The maturity of the bonds authorized by this subsection (8) shall, at the time of purchase, not exceed 5 years; provided that a longer maturity is authorized if the Authority has a put option on the bonds to demand early repayment on the bonds within 5 years from the date of purchase. These securities shall show on their face that they are fully payable as to principal and interest, where applicable, if any, within five years from the date of purchase.

<u>Custodial Credit Risk</u>: Custodial credit risk for deposits is the risk that in the event of a financial institution failure, the CTA's deposits may not be returned. Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the CTA will not be able to recover the value of its investments or collateral securities that are in the possession of a third party. The Investment Policy requires that investment securities be held by an authorized custodial bank pursuant to a written custodial agreement.

In addition, the Investment Policy requires that whenever funds are deposited in a financial institution in an amount which causes the total amount of the Authority's funds deposited with such institution to exceed the amount which is protected by the FDIC, all deposits which exceed the amount insured be collateralized, at the rate of 102% of such deposit, by: bonds, notes, certificates of indebtedness, Treasury bills, or other securities which are guaranteed by the full faith and credit of the United States of America as to principal and interest or, at the rate of 110% of such deposit, by: bonds, notes, debentures, or other similar obligations of agencies of the United States of America. As of December 31, 2022 and 2021, the CTA's bank balances were fully insured or collateralized.

<u>Interest Rate Risk</u>: Interest rate risk is the risk that the fair value of the CTA's investments will decrease as a result of an increase in interest rates. As a means of limiting its exposure to fair value losses arising from rising interest rates, the Investment Policy limits the allocation of the portfolio and the term of investments as follows:

	Maximum Investment	Actual Investment	Term of
Instrument type	Level	Level	investment
U.S. Treasuries	100%	3%	3 years
Repurchase Agreements	33%	0%	330 days
Certificates of Deposit	30%	0%	365 days
Corporate Obligations	33%	28%	3 years
Government Money Market Funds	50%	49%	n.a.
U.S. Government Agencies	75%	17%	5 years
Municipal Bonds (Callable)	25%	3%	5 years
Investment Pool - Illinois Fund	25%	0%	n.a.

NOTE 5 - CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)

As of December 31, 2022, the maturities for the CTA's fixed-income investments are as follows (in thousands of dollars):

		Investment maturities (by years)

Total	\$	630,668	\$	575,856	\$	54,812	\$	-

<u>Credit Risk</u>: Credit risk is the risk that the CTA will not recover its investments due to the failure of the counterparty to fulfill its obligation. To address this risk, the CTA invests in accordance with its Investment Policy which states investments held by CTA are backed by the United States Government, which are valued at AAA, municipal bonds that shall be rated, at the time of purchase, no lower than 'A' category by at least two accredited rating agencies with nationally recognized expertise in rating bonds of states and their political subdivisions, and commercial paper that are at the time of purchase at the highest classification established by at least two standard rating services and which mature not later than three years from the date of purchase.

NOTE 5 - CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)

As of December 31, 2022, the CTA had the following fixed-income investments which are rated by both Moody's and Standard and Poor's (in thousands of dollars):

					Cr	edit ra	itings				
		Fair	41P1 or	A2I	P2 or	A3P	3 or				
		value	AAA		AA		4	В	}	Not ra	ated

Total	\$ 506,821	\$	506,821	\$	-	\$		\$		\$	-
		_									

Concentration of Credit Risk: Except for investments in certificates of deposits and commercial paper, the CTA does not restrict the amount which may be invested in authorized investments of a single issuer or financial institution. No more than 30 percent of the maximum portfolio percentage amount allowed for investment in certificates of deposit may be invested in certificates of deposit of a single issuer of such certificates. No more than 25 percent of the maximum portfolio percentage amount allowed for investment in commercial paper may be invested in commercial paper of a single issuer of such commercial paper.

As of December 31, 2022, the CTA had investments in Goldman Sachs – Amalgamated (17.62%), Morgan Stanley – Zions Bank (31.30%), and Federal Home Loan Bank (FHLB) (9.48%), that exceeded 5 percent of the total investment balance. As of December 31, 2021, the CTA had investments in Goldman Sachs – Amalgamated (24.15%), Morgan Stanley – Zions Bank (22.65%), and Treasury Bill (T-Bills) (18.68%), that exceeded 5 percent of the total investment balance.

<u>Fair Value</u>: CTA categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs and are valued using a matrix pricing model. Level 3 inputs are significant unobservable inputs and are valued using future projected cash flows. CTA has the following fair value measurements as of December 31, 2022 and 2021 (in thousands of dollars).

NOTE 5 - CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)

Cash, Cash Equivalents, and Investments of the Fiduciary Activities

Cash, cash equivalents, and investments are reported in the Fiduciary Fund as follows as of December 31, 2022 and 2021 (in thousands of dollars):

	 2022	 2021
Investments:	_	
Short-term investments	\$ 61	\$ 478
U.S. fixed income	7,946	9,350
Global fixed income	141	-
Common stock	19,650	24,135
Real estate	3,278	3,576
Total	\$ 31,076	\$ 37,539

<u>Investment Policy</u>: The Employee Retirement Review Committee has been appointed as the fiduciary having responsibility for administering the Qualified Supplemental Retirement Plan, including the responsibility for allocating the assets of the trust fund among the separate accounts, for monitoring the diversification of the investments of the trust fund, for determining the propriety of investments of the trust fund in foreign securities and of maintaining the custody of foreign investments abroad, for assuring that the plan does not violate any provisions of applicable law limiting the acquisition or holding of certain securities or other property, and for the appointment and removal of an investment fiduciary. The Qualified Supplemental Retirement Plan is a qualified plan that is not subject to the Public Funds Investment Act.

NOTE 5 - CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)

In March 2005 the Employee Retirement Review Committee engaged a registered investment adviser under the Investment Advisers Act of 1940. The Employee Retirement Review Committee engaged a new registered investment adviser in October 2015. The investment adviser is authorized to invest and reinvest the assets of the Qualified Supplemental Retirement Plan and keep the same invested, without distinction between principal and income, in any property, real, personal or mixed or share or part thereof, or part interest thereof, or part interest therein, wherever situated, and whether or not productive of income, including: capital, common and preferred stock, and short-term investments.

<u>Interest Rate Risk</u>: Interest rate risk is the risk that the fair value of the Qualified Supplemental Retirement Plan investments will decrease as a result of an increase in interest rates. The Employee Retirement Review Committee mitigates exposure to changes in interest rates by requiring that the assets of the Trust be invested in accordance with the following asset allocation guidelines as of December 31, 2022 and 2021.

	2022	2021
Asset class	Allocation	Allocation
U.S. large cap equities	20.00%	20.00%
U.S. mid size cap equities	5.00	5.00
U.S. small cap equities	5.00	5.00
Developed non-U.S. equities	15.00	15.00
Emerging markets equities	5.00	5.00
U.S. fixed income	30.00	30.00
Real estate	10.00	10.00
Open-End Private Equity	10.00	10.00
	100.00%	100.00%

As of December 31, 2022, the maturities for the Plan's fixed-income investments are as follows (in thousands):

			Investment Maturities (in years						
	\		Less han 1	1 - 5					
Short-term investment funds	\$	61	\$	61	\$	-			
U.S. fixed income		7,946		7,946		-			
Global fixed income		141		141		-			
Total	\$	8,148	\$	8,148	\$	_			

As of December 31, 2021, the maturities for the Plan's fixed-income investments are as follows (in thousands):

			Inve	estment Mat	urities	(in years)	
	Fair value			Less han 1	1 - 5		
Short-term investment funds	\$	478	\$	478	\$	-	
U.S. fixed income		9,350		9,350			
Total	\$	9,828	\$	9,828	\$	-	

NOTE 5 - CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)

<u>Credit Risk</u>: Credit risk is the risk that the Qualified Supplemental Retirement Plan will not recover its investments due to the failure of the counterparty to fulfill its obligation.

As of December 31, 2022, the Plan had the following fixed-income investments which are not rated by either Moody's or Standard and Poor's (in thousands of dollars):

		Credit	ratings		
	Fair ⁄alue	 nment ured		Not Rated	
Short-term investment funds	\$ 61	\$ _	\$	61	
U.S. fixed income	7,946	-		7,946	
Global fixed income	141	-		141	
Total	\$ 8,148	\$ -	\$	8,148	

As of December 31, 2021, the Plan had the following fixed-income investments which are not rated by either Moody's or Standard and Poor's (in thousands of dollars):

		Credit re						
	,	Fair value		rnment ured	i	Not Rated		
Short-term investment funds	\$	478	\$	-	\$	478		
U.S. fixed income		9,350		-		9,350		
Total	\$	9,828	\$	-	\$	9,828		

<u>Custodial Credit Risk – Investments</u>: Custodial credit risk is the risk that, in the event of the failure of the counterparty, the Qualified Supplemental Retirement Plan will not be able to recover the value of its investments or collateral securities that are in the possession of a third party. The investment securities are held in trust pursuant to a written trust agreement.

<u>Foreign Currency Risk</u>: Foreign currency risk is the risk that changes in exchange rates will adversely impact the fair value of an investment. There was no foreign currency risk as of December 31, 2022 or 2021.

<u>Fair Value</u>: The Qualified Supplemental Plan categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs and are valued using a matrix pricing model. Level 3 inputs are significant unobservable inputs and are valued using future projected cash flows. The Qualified Supplemental Plan has the following fair value measurements as of December 31, 2022 and 2021 (in thousands of dollars).

Investment in Certain Entities that Calculate Net Asset Value Per Share

CTA measures certain investments that do not have a readily determinable fair value using NAV as a practical expedient. The Real Estate, Common Stock – Global, Global Fixed Income and the U.S. Fixed Income and Common Stock are generally structured as limited partnerships, limited liability corporations, or collective trusts, respectively, with an investment manager and are created by raising pools of capital from investors that will be invested according to one or more specific investment strategies. Investors commit capital to the fund, and as the investment manager identifies investment opportunities, the committed capital is called to purchase the investments.

NOTE 5 - CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)

The following table displays information regarding investments that use NAV per share (or equivalent) as their fair value measurement as of December 31, 2022 and 2021 (in thousands of dollars):

		Net Asset Value Practical Expedient					
	Fa	Fair Value		Fair Value Total		Redemption	Redemption

NOTE 6 - CAPITAL ASSETS

The CTA has capital grant contracts with federal, state, and regional agencies, including the U.S. Department of Transportation, Federal Transit Administration (FTA), the State of Illinois Department of Transportation (IDOT), established under the Transportation Bond Act, and the RTA. Under these contracts, the CTA has acquired rapid-transit cars, buses, and equipment and is constructing, renewing, and improving various portions of track structures and related operating facilities and systems. It is anticipated that the FTA will finance approximately 80% of the total cost of the federal projects, with the balance of the cost being financed principally by IDOT, the RTA, and CTA bonds. Commitments of approximately \$529,918,000 and \$476,431,000 have been entered into for federal and state (including local) capital grant contracts as of December 31, 2022 and 2021, respectively.

The CTA also has additional capital grant contracts, which are 100% funded by the RTA, IDOT, FEMA, IEMA, or a capital line of credit. Commitments of approximately \$2,074,551,000 and \$1,984,384,000 have been entered into for these state and local capital grants as of December 31, 2022 and 2021, respectively.

Changes in capital assets for the year ended December 31, 2022 are as follows (in thousands of dollars):

	January 1, 2022	Increase	Decrease	December 31, 2022

NOTE 8 - PUBLIC BUILDING COMMISSION PAYABLE

<u>Public Building Commission</u>: In 2003, the Public Building Commission of Chicago (PBC) issued revenue bonds for the benefit of the CTA in the amount of \$119,020,000. The bonds were issued to pay costs associated with the acquisition of real property and construction of a building, and facilities, including certain furniture, fixtures, and equipment. The real property, building and facilities, and all furniture, fixtures, and equipment are owned by the PBC and are used by the CTA as its headquarters. On October 26, 2006, the PBC issued Building Refunding Revenue Bonds for the benefit of the CTA in the amount of \$91,340,000. The proceeds of the bonds were used to advance refund the Public Building Commission of Chicago, Series 2003 bonds. The principal amount of the bonds refunded was \$111,120,000.

The proceeds from the sale of the 2006 bonds are being held in escrow under an escrow refunding agreement and have been invested in United States Treasury obligations. The principal amount of such obligations, together with interest earned thereon, will permit the payment of principal and interest on the refunded bonds up to and including their respective call dates. The refunded bonds are treated in the financial statements as defeased obligations. Accordingly, neither the trust account assets nor the refunded bonds appear in the accompanying financial statements. This refunding decreased annual debt service payments over 27 years by approximately \$388,000, resulting in an economic gain of approximately \$20,404,000.

NOTE 8 – PUBLIC BUILDING COMMISSION PAYABLE (Continued)

Based upon the requirements of GASB Statement No. 23, Accounting and Financial Reporting for Refundings of Debt Reported by Proprietary Accounts, the CTA recorded a deferred amount (loss) on refunding of \$2,395,000. The remaining unamortized portion of \$95,000 and \$197,000 are recorded as deferred outflows of resources in the accompanying Statements of Net Position as of December 31, 2022 and 2021, respectively.

The bonds are payable from and secured by the agreement entered into between the Commission and the CTA and are considered a general obligation of the CTA payable from any lawfully available funds. The bond premium related to this transaction is presented as such on the Statements of Net Position. The present value of the future payments to be made by the CTA under the agreement of approximately \$51,715,000 and \$55,105,000 is reflected in the accompanying December 31, 2022 and 2021 Statements of Net Position, respectively, as a liability.

<u>Principal and Interest Requirements to Maturity</u>: As of December 31, 2022 future principal and interest payments for the PBC payable are as follows (in thousands of dollars):

	<u>Principal</u>	Interest
2023	\$ 3,565	\$ 2,621
2024	3,760	2,429
2025	3,960	2,227
2026	4,175	2,013
2027	4,400	1,788
2028 - 2032	25,825	5,115
2033	6,030	158
	\$ 51,715	\$ 16,351

NOTE 9 - BONDS PAYABLE

2008A Series (Pension Funding) and 2008B Series (Retiree Health Care Funding) Sales and Transfer Tax Receipts Revenue Bonds: On July 30, 2008, the CTA issued Sales and Transfer Tax Receipts Revenue Bonds in the amount of \$1,936,855,000 to fund the employee retirement plan and to create a retiree health care trust. The bonds were sold in two tranches, a \$1.3 billion Series A to fund the employee's retirement plan and a \$640 million Series B to fund a permanent trust that was established to cover other postemployment benefits for retirees' health care. The bonds are secured primarily by a pledge of and lien on the Sales Tax Receipts Fund and the Transfer Tax Receipts Fund deposits. The bonds were issued pursuant to the pension and retiree health care reform requirements set forth in Public Acts 94-839 and 95-705.

Public Act 94-839 required the CTA to make contributions to its retirement system in an amount which, together with the contributions of its participants, interest earned on investments and other income, were sufficient to bring the total assets of the retirement system up to 90% of its total actuarial liabilities by the end of fiscal year 2058. Additionally, Public Act 94-839 required that the Retirement Plan's pension and retiree health care programs be separated into two distinct trusts by December 31, 2008.

NOTE 9 - BONDS PAYABLE (Continued)

Public Act 95-708 modified this directive slightly and added a number of other requirements. First, a new Retirement Plan Trust will be created to manage the Retirement Plan assets. Second, CTA contributions and employee contributions were increased. Third, in addition to the requirement that the Retirement Plan be 90% funded by 2059, there is a new requirement that the Retirement Plan be funded at a minimum of 60% by September 15, 2009. Any deviation from the stated projections could result in a directive from the State of Illinois Auditor General to increase the CTA and employee contributions.

Fourth, Public Act 95-708 authorized the CTA to issue \$1.9 billion in pension obligation bonds to fund the pension and retiree health care. Finally, the legislation provides that CTA will have no future responsibility for retiree healthcare costs after the bond funding. In accordance with Public Act 95-708, all retiree healthcare benefits are now paid from the newly established Retiree Health Care Trust.

This bond contains a provision that in the event of default, the CTA upon demand of the Trustee shall pay any amounts remaining in the Sales Tax Receipt Fund and the Transfer Tax Receipts Fund, as defined by the bond agreement, and all tax receipts as promptly as practicable after receipt.

The Series 2008A and 2008B bonds bear interest ranging from 5.1% to 6.9%. Scheduled interest on the 2008A and 2008B bonds will be funded through June 1, 2009 and June 1, 2010, respectively, with bond proceeds and interest earnings thereon. Interest is payable semiannually on June 1 and December 1 and the bonds mature serially on June 1, 2013 through June 1, 2040.

	Principal Principal	Interest	Total

NOTE 9 - BONDS PAYABLE (Continued)

2010A Sales Tax Receipts Revenue Bonds and Taxable Series 2010B Sales Tax Receipts Revenue Bonds (Build America Bonds): On March 23, 2010, the CTA issued the Sales Tax Receipts Revenue Bonds, Series 2010A and Taxable Series 2010B Build America Bonds, in the amount of \$550,000,000, along with a premium of \$5,186,000. The bonds were issued to provide funds to finance or reimburse the CTA for expenditures relating to the purchase of new rail cars, overhaul and rehabilitation of existing rail cars, and the purchase and installation of upgrades for rail system components. The American Recovery and Reinvestment Act of 2009 created the Build America Bond (BAB) Program. This program allows state and local governments to issue taxable bonds for capital projects and to receive a federal subsidy payment from the U.S. Treasury Department for a portion of their borrowing costs.

This bond contains a provision that in the event of default, the CTA, upon demand of the Trustee shall pay, after payment is made on the 2008A and 2008B Pension and Retiree Health Care Funding bonds, any amounts remaining in the Sales Tax Receipts Fund, as defined by the bond agreement, and all Sales Tax Receipts as promptly as practicable after receipt.

The Series 2010A and 2010B bonds bear interest ranging from 4.0% to 6.2%. Scheduled interest on the 2010 bonds was funded through December 1, 2010 with proceeds of the 2010 bonds and interest earnings thereon. Interest is payable semiannually on June 1 and December 1 and the bonds mature serially on June 1, 2015 through June 1, 2040.

The bond debt service requirements to maturity are as follows (in thousands of dollars):

		<u>2010B</u>	
	Principal	Interest	Total
2023	\$ 13,405	\$ 28,900	\$ 42,305
2024	14,135	28,167	42,302

2040	45,610	2,828	48,438
Total	\$ 469,030	\$ 335,404	\$ 804,434

There are no bond debt service requirements on the Series 2010A bonds as of December 31, 2022 and 2021.

NOTE 9 - BONDS PAYABLE (Continued)

2010 (5307 Urbanized Area Formula Program & 5309 Fixed Guideway Modernization Program) Refunding Series Capital Grant Receipts Revenue Bonds: On May 6, 2010, the CTA issued the tax-exempt Capital Grant Receipts Revenue Bonds backed by the pledge of Federal Transit Administration Section 5307 Urbanized Area Formula Program and 5309 Fixed Guideway Modernization Program Funds, in the amount of \$90,715,000, along with a premium of \$1,876,000, in anticipation of the receipt of grants from the federal government pursuant to a full funding grant agreement. The bonds were issued to provide funds to refund a portion of the outstanding 5307 (Series 2004A, 2004B and 2006A) and 5309 (Series 2008 and 2008A) bonds.

This bond contains a provision that in the event of default, the CTA upon demand of the Trustee shall pay all moneys, securities, and funds held by the CTA in a fund, account, or sub-account pursuant to the terms of the Indenture and all 5307 and 5309 Grant Receipts as promptly as practicable after receipt.

The Series 2010 bonds bear interest at 5.00%. Interest is payable semiannually on June 1 and December 1, and the bonds mature serially on June 1, 2027 and June 1, 2028.

Net proceeds of \$45,778,000 were deposited into an irrevocable trust with an escrow agent to provide for 2011 debt service payments on the 5307 (Series 2004A, 2004B and 2006A) and 5309 (Series 2008 and 2008A) bonds. As a result, a portion of the 5307 (Series 2004A, 2004B and 2006A) and 5309 (Series 2008 and 2008A) bonds then outstanding are considered to be defeased and the 2011 liability has been removed from the Statements of Net Position.

The CTA refunded the various bonds using the proceeds from the 2010 Series bonds which increased its total debt service payments over the next 19 years by \$78,528,000 and resulted in an economic loss (difference between the present values of the debt service payments on the old and new debt) of \$3,099,000. The defeased debt had a zero balance as of December 31, 2022 and 2021.

The Capital Grant Receipts Revenue Bonds, Refunding Series 2021 bond refunded the maturities dated June 1, 2027 through 2028 of the 5307 and 5309 (Series 2010) bonds.

There are no bond debt service requirements on the Series 2010 bonds as of December 31, 2022 and 2021.

2011 (5307 Urbanized Area Formula Program) Refunding Series Capital Grant Receipts Revenue Bonds: On October 26, 2011, the CTA issued the tax-exempt Capital Grant Receipts Revenue Bonds backed by the pledge of Federal Transit Administration Section 5307 Urbanized Area Formula Program, in the amount of \$56,525,000, along with a premium of \$1,806,000, in anticipation of the receipt of grants from the federal government pursuant to a full funding grant agreement. The bonds were issued to provide funds to refund a portion of the outstanding 5307 (Series 2004B and 2006A) bonds.

This bond contains a provision that in the event of default, the CTA upon demand of the Trustee shall pay all moneys, securities, and funds held by the CTA in a fund, account, or sub-account pursuant to the terms of the Indenture and all 5307 Grant Receipts as promptly as practicable after receipt.

The Series 2011 bonds bear interest ranging from 4.5% to 5.25%. Interest is payable semiannually on June 1 and December 1, and the bonds mature serially from June 1, 2022 to June 1, 2029.

NOTE 9 - BONDS PAYABLE (Continued)

Net proceeds of \$57,535,000 were deposited into an irrevocable trust with an escrow agent to provide for debt service payments on the 5307 (Series 2004B and 2006A) bonds. As a result, a portion of the 5307 (Series 2004B and 2006A) bonds then outstanding are considered to be defeased and the related liability has been removed from the Statements of Net Position. The CTA refunded the various bonds using the proceeds from the 2011 Series bonds which increased its total debt service payments over the next 18 years by \$34,252,000 and resulted in an economic loss (difference between the present values of the debt service payments on the old and new debt) of \$9,214,000. The defeased debt had a zero balance as of December 31, 2022 and 2021.

The difference between the reacquisition price and the net carrying amount of the bonds refunded by the Capital Grant Receipts Revenue Bonds, Refunding Series 2011 of \$6,794,000 was deferred and is being amortized over 18 years. There was no deferred balance as of December 31, 2022 and 2021.

The Capital Grant Receipts Revenue Bonds, Refunding Series 2021 bond refunded the maturities dated June 1, 2022 through 2029 of the 5307 (Series 2011) bonds.

There are no bond debt service requirements on the Series 2011 bonds as of December 31, 2022 and 2021.

<u>2014 Sales Tax Receipts Revenue Bonds</u>: On July 10, 2014, the CTA issued Sales and Transfer Tax Receipts Revenue Bonds, Series 2014 in the amount of \$550,000,000, along with a premium of \$45,154,000. The bonds were issued to provide funds to finance, in whole or in part, capital projects contemplated by the Authority's Capital Plan.

NOTE 9 - BONDS PAYABLE (Continued)

This bond contains a provision that in the event of default, the CTA, upon demand of the Trustee shall pay, after payment is made on the 2008A and 2008B Pension and Retiree Health Care Funding bonds, any amounts remaining in the Sales Tax Receipts Fund, as defined by the bond agreement, and all Sales Tax Receipts as promptly as practicable after receipt.

The Series 2014 bonds bear interest ranging from 5.0% to 5.25%. Interest is payable semiannually on June 1 and December 1 and the bonds mature serially December 1, 2041 through December 1, 2049.

The bond debt service requirements to maturity are as follows (in thousands of dollars):

	Principal	Interest	Total

2015 Refunding Series Capital Grant Receipts Revenue Bonds: On September 16, 2015, the CTA issued Capital Grant Receipts Revenue Bonds backed by the pledge of Federal Transit Administration Section 5307 Urbanized Area Formula Program Funds and Section 5337 State of Good Repair Formula Program Funds, in the amount of \$176,920,000 along with a premium of \$21,569,000, in anticipation of the receipt of grants from the federal government pursuant to a full funding grant agreement. The bonds were issued to refund a portion of the outstanding 5307 (Series 2004B and 2006A) and 5337 (Series 2008A) bonds.

NOTE 9 - BONDS PAYABLE (Continued)

This bond contains a provision that in the event of default, the CTA upon demand of the Trustee shall pay all moneys, securities, and funds held by the CTA in a fund, account, or sub-account pursuant to the terms of the Indenture and all 5307 and 5337 Grant Receipts as promptly as practicable after receipt.

The Series 2015 bond bear interest at 5.00%. Interest is payable semiannually on June 1 and December 1, commencing December 1, 2015 and the bonds mature serially June 1, 2018 through June 1, 2026.

The remaining net proceeds of \$197,159,000 were deposited into an irrevocable trust with an escrow agent to provide for debt service payments on the 5307 (Series 2004B and 2006A) and 5337 (Series 2008A) bonds. As a result, a portion of the 5307 (Series 2004B and 2006A) and 5337 (Series 2008A) bonds then outstanding are considered to be defeased and the related liability has been removed from the Statements of Net Position. The CTA refunded the various bonds using the proceeds from the 2015 Series bonds which reduced its total debt service payments over the next 10 years by \$10,043,000 and resulted in an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$9,856,000. The defeased debt had a zero balance as of December 31, 2022 and December 31, 2021.

The difference between the reacquisition price and the net carrying amount of the bonds refunded by the Capital Grant Receipts Revenue Bonds, Refunding Series 2015 of \$12,281,000 was deferred and is being amortized over the next 10 years. The deferred amount ending balance for the years ended December 31, 2022 and 2021 was \$1,318,000 and \$1,844,000, respectively. Amortization of the deferred amount on the refunding was \$526,000 and \$777,000 for the years ended December 31, 2022 and 2021, respectively.

The bond debt service requirements to maturity are as follows (in thousands of dollars):

		<u>2015 (5337)</u>						
	P	rincipal	In	terest				
2023	\$	370	\$	2,193				
2024		13,855		1,838				
2025		14,550		1,128				
2026		15,275		382				
Total	\$	44,050	\$	5,541				

There are no bond debt service requirements on the Series 2015 (5307) bonds as of December 31, 2022.

<u>2017 Second Lien Sales Tax Receipts Revenue Bonds:</u> On January 10, 2017, the CTA issued the Second Lien Sales Tax Receipts Revenue Bonds, Series 2017, in the amount of \$296,220,000, along with a premium of \$18,108,000. The bonds were issued to (i) finance certain capital projects contemplated by the CTA's capital improvement plan, (ii) capitalize interest on the 2017 Second Lien Bonds and (iii) pay costs in connection with the issuance of the 2017 Second Lien Bonds.

This bond contains a provision that in the event of default, the CTA, upon demand of the Trustee shall pay after payment is made on the 2008A and 2008B Pension and Retiree Health Care Funding bonds and on the Sales Tax Receipts Revenue Bonds, Series 2010A and Taxable Series 2010B bonds, any amounts remaining in the Sales Tax Receipts Fund, as defined by the bond agreement, and all Sales Tax Receipts as promptly as practicable after receipt.

NOTE 9 - BONDS PAYABLE (Continued)

The Series 2017 bonds bear interest ranging from 4.0% to 5.0%. Scheduled interest on the 2017 bonds was funded through December 1, 2018 with proceeds of the 2017 bonds and interest thereon. Interest is payable semiannually on June 1 and December 1 and the bonds mature serially December 1, 2041 through December 1, 2051.

2017 Refunding Series Capital Grant Receipts Revenue Bonds: On July 18, 2017, the CTA issued Capital Grant Receipts Revenue Bonds backed by the pledge of Federal Transit Administration Section 5307 Urbanized Area Formula Program Funds and Section 5337 State of Good Repair Formula Program Funds, in the amount of \$225,795,000 along with a premium of \$31,279,000, in anticipation of the receipt of grants from the federal government pursuant to a full funding grant agreement. The bonds were issued to refund the Series 2008A 5307 bonds maturing June 1, 2022 through 2026 as well as refunding the Series 2008 5337 bonds maturing June 1, 2019 through 2026 and the Series 2008A 5337 bonds maturing June 1, 2019 through 2023.

NOTE 9 - BONDS PAYABLE (Continued)

This bond contains a provision that in the event of default, the CTA upon demand of the Trustee shall pay all moneys, securities, and funds held by the CTA in a fund, account, or sub-account pursuant to the terms of the Indenture and all 5307 and 5337 Grant Receipts as promptly as practicable after receipt.

The Series 2017 bonds bear interest ranging from 2.0% to 5.0%. Interest is payable semiannually on June 1 and December 1 and the bonds mature serially June 1, 2018 through June 1, 2026.

Net proceeds of \$255,396,000 were deposited into an irrevocable trust with an escrow agent to provide for debt service payments on the 5307 (Series 2008A) and 5337 (Series 2008 and 2008A) bonds. As a result, a portion of the 5307 (Series 2008A) and 5337 (Series 2008 and 2008A) bonds then outstanding are considered to be defeased and the related liability has been removed from the Statements of Net Position. The CTA refunded the various bonds using the proceeds from the 2017 Series bonds which resulted in a difference of cash flows of debt service payments on the old and new debt of \$30,456,000 and an economic gain (present value of the difference in debt service cash flows payments) of \$27,099,000. The defeased debt had a balance of zero as of December 31, 2022 and 2021.

The difference between the reacquisition price and the net carrying amount of the bonds refunded by the Capital Grant Receipts Revenue Bonds, Refunding Series 2017 of \$4,929,000 was deferred and is being amortized over the next 9 years. The deferred amount ending balance for the years ended December 31, 2022 and 2021 was \$929,000 and \$1,488,000, respectively. Amortization of the deferred amount on the refunding was \$559,000 and \$669,000 for the years ended December 31, 2022 and 2021, respectively

The bond debt service requirements to maturity are as follows (in thousands of dollars):

2020A Second Lien Sales Tax Receipts Revenue Bonds: On September 3, 2020, the CTA issued the Second Lien Sales Tax Receipts Revenue Bonds, Series 2020A, in the amount of \$367,895,000, along with a premium of \$43,580,000. The bonds were issued to pay for projects included in the Capital Improvement Plan and repay a portion of CTA's Second Lien Sales Tax Receipts Capital Improvement Notes.

This bond contains a provision that in the event of default, the CTA, upon demand of the Trustee shall pay after payment is made on the 2008A and 2008B Pension and Retiree Health Care Funding bonds and on the Sales Tax Receipts Revenue Bonds, Series 2010A and Taxable Series 2010B bonds, any amounts remaining in the Sales Tax Receipts Fund, as defined by the bond agreement, and all Sales Tax Receipts as promptly as practicable after receipt.

The Series 2020A bonds bear interest ranging from 4.0% to 5.0%. Scheduled interest on the 2020A bonds was funded through September 1, 2023 with proceeds of the 2020A bonds and interest thereon. Interest is payable semiannually on June 1 and December 1 and the bonds mature on December 1, 2041 through December 1, 2055.

<u>2020B Taxable Series Sales Tax Receipts Revenue Refunding Bonds</u>: On September 3, 2020, the CTA issued the Taxable Sales Tax Receipts Revenue Refunding Bonds, Series 2020B, in the amount of \$534,005,000. The bonds were issued to refund the outstanding Sales Tax Receipts Revenue Bonds Series 2011 and to repay a portion of CTA's Second Lien Sales Tax Receipts Capital Improvement Notes.

This bond contains a provision that in the event of default, the CTA, upon demand of the Trustee shall pay, after payment is made on the 2008A and 2008B Pension and Retiree Health Care Funding bonds, any amounts remaining in the Sales Tax Receipts Fund, as defined by the bond agreement, and all Sales Tax Receipts as promptly as practicable after receipt.

NOTE 9 - BONDS PAYABLE (Continued)

The Series 2020B bonds bear interest ranging from 1.7% to 3.9%. Scheduled interest on the 2020B bonds was funded through June 1, 2021 with proceeds of the 2020B bonds and interest thereon. Interest on the 2020 bonds is payable semiannually on June 1 and December 1 and the bonds mature on December 1, 2022 through December 1, 2040.

Net proceeds of \$513,611,000 were deposited into an irrevocable trust with an escrow agent to provide for debt services payments on the Sales Tax Receipts Revenue (Series 2011) bonds. As a result, a portion of the Sales Tax Receipts Revenue (Series 2011) bonds then outstanding are considered to be defeased and the related liability has been removed from the Statements of Net Position. The CTA refunded the Series 2011 bonds using the proceeds from the 2020B Series bonds which resulted in a difference of cash flows of debt service payments on the old and new debt of \$47,604,000 and an economic gain (present value of the difference in debt service cash flow payments) of \$46,991,000. The defeased debt had a zero balance as of December 31, 2022 and 2021.

The difference between the reacquisition price and the net carrying amount of the bonds refunded by the Taxable Sales Tax Receipts Revenue Bonds, Refunding Series 2020B of \$17,927,000 was deferred and is being amortized over the next 20 years. The deferred amount ending balance for the years ended December 31, 2022 and 2021 was \$14,518,000 and \$15,979,000, respectively. Amortization of the deferred amount on the refunding was \$1,461,000 for each of the years ended December 31, 2022 and 2021.

NOTE 9 - BONDS PAYABLE (Continued)

2021 Refunding Series Capital Grant Receipts Revenue Bonds: On June 10, 2021, the CTA issued Capital Grant Receipts Revenue Bonds backed by the pledge of Federal Transit Administration Section 5307 Urbanized Area Formula Funds and Section 5337 State of Good Repair Formula Funds, in the amount of \$120,975,000 along with a premium of \$27,846,000. The bonds were issued to refund the Series 2010 5307 bonds maturing June 1, 2027 through 2028, the Series 2011 5307 bonds maturing June 1, 2022 through 2029, and the Series 2010 5309 bonds maturing June 1, 2027 through 2028.

The bonds contain a provision that in the event of default, the CTA upon demand of the Trustee shall pay all moneys, securities, and funds held by the CTA in a fund, account, or sub-account pursuant to the terms of the Indenture and all 5307 and 5337 Grant Receipts as promptly as practicable after receipt.

The Series 2021 bonds bear interest at 5.0%. Interest is payable semiannually on June 1 and December 1 and the bonds mature serially June 1, 2022 through June 1, 2029.

Net proceeds of \$147,713,000 were deposited into an irrevocable trust with an escrow agent to provide for debt service payments on the 5307 (Series 2010 and 2011) and 5309 (Series 2010) bonds. As a result, a portion of the 5307 (Series 2010 and 2011) and 5309 (Series 2010) bonds then outstanding are considered to be defeased and the related liability has been removed from the Statements of Net Position. The CTA refunded the various bonds using the proceeds from the 2021 Series bonds which resulted in a difference of cash flows of debt service payments on the old and new debt of \$34,077,000 and an economic gain (present value of the difference in debt service cash flows payments of \$32,484,000. The defeased debt had a balance of zero as of December 31, 2022 and 2021.

The difference between the reacquisition price and the net carrying amount of the bonds refunded by the Capital Grant Receipts Revenue Bonds, Refunding Series 2021 of \$1,233,000 was deferred and is being amortized over the next 8 years. The deferred amount ending balance for the years ended December 31, 2022 and 2021 was \$912,000 and \$1,112,000, respectively. Amortization of the deferred amount on the refunding was \$200,000 and \$121,000 for the years ended December 31, 2022 and 2021, respectively.

<u>Future Revenue Pledges</u>: The CTA has pledged the following future revenues to secure outstanding balances of bond issuances as of December 31, 2022 and 2021 in accordance with bond security requirements:

Real Estate Transfer Tax (RETT) Receipts received from the City of Chicago are pledged to secure the Series 2008A and 2008B Sales and Transfer Tax Receipts Revenue Bonds; Sales Tax Receipts received from the Regional Transportation Authority (RTA) are pledged to secure remaining debt service unpaid by RETT receipts. Debt service for the bonds outstanding were \$2,818,336,000 and \$2,974,912,000 as of December 31, 2022 and 2021, respectively. Total real estate transfer tax funds were approximately \$79,926,000 and \$71,118,000 as of December 31, 2022 and 2021, respectively. The following principal and interest bond payments were made during December 31, 2022 and 2021 (in thousands of dollars):

	Р	rincipal	Interest
2022	\$	44,080	\$ 112,496
2021		41,465	115,109

NOTE 9 - BONDS PAYABLE (Continued)

Sales Tax Receipts are also pledged to secure the First Lien Series 2010B, 2014, and 2020B as well as Second Lien Series 2017, 2020A, and 2022A Sales Tax Receipts Revenue Bonds and 2017 Tax-Exempt Note Purchase Agreement (NPA). Sales Tax Receipts secure balances due on the Second Lien Series 2017, 2020A, and 2022A Sales Tax Receipts Revenue Bonds and the 2017 Tax-Exempt Note NPA after satisfying balances due on First Lien Obligations. Debt service for the bonds outstanding were \$5,015,666,000 and \$4,329,817,000 as of December 31, 2022 and 2021, respectively. Total sales tax receipts funds were approximately \$966,278,000 and \$872,101,000 as of December 31, 2022 and 2021, respectively. The following principal and interest bond payments were made during December 31, 2022 and 2021 (in thousands of dollars):

NOTE 10 - FARE COLLECTION SYSTEM PURCHASE AGREEMENT

CTA entered into a purchase agreement to finance a fare collection system with a value of \$102,900,000. Under the purchase agreement, the CTA will make monthly payments of approximately \$1,067,600 over the ten-year term to finance the design, acquisition and installation of the open standards fare system. The present value of the future payments to be made by the CTA under the purchase agreement of approximately \$12,497,000 is reflected in the accompanying December 31, 2022 Statements of Net Position as an other long-term liability.

As of September 2019, CTA has entered into another purchase agreement to replace the majority of the fare collection system equipment. No amounts are due and payable under the agreement for the new system until it is delivered and operational, which is not anticipated to occur for several years. The payment for such replacement system will be a separate capital cost to be paid in addition to the foregoing financed amounts.

The purchase agreement requirements to maturity are as follows (in thousands of dollars):

	Pr	incipal	Int	erest	Total		
2023	\$	12,497	\$	314	\$	12,811	
	\$	12,497	\$	314	\$	12,811	

NOTE 11 - TIFIA LOANS

2014 TIFIA Loan

On April 24, 2014, CTA entered into a definitive loan agreement with the United States Department of Transportation (USDOT), an agency of the United States of America, acting by and through the Federal Highway Administrator under the Transportation Infrastructure Finance and Innovation Act (TIFIA) loan program to finance certain projects that are a part of the Authority's 95th Street Terminal Improvement Project.

This loan contains a provision that in the event of default, all obligations relating to the disbursement of undisbursed Loan amounts shall automatically be deemed terminated. The unpaid principal amount of the loan, together with all interest accrued, fees, costs, expenses, indemnities and other amounts payable under the loan shall automatically become immediately due and payable.

The principal amount of the TIFIA Loan shall not exceed \$79,200,000; provided, the maximum principal amount of the TIFIA loan disbursed by the USDOT, together with the amount (excluding any interest that is capitalized) of any other credit assistance provided under TIFIA, cannot exceed thirty-three percent (33%) of reasonably anticipated eligible project costs. Further, total federal funding, inclusive of the TIFIA loans and all federal direct or indirect grants, cannot exceed eighty percent (80%) of reasonably anticipated eligible project costs.

As evidence of CTA's obligation to repay the TIFIA Loan, CTA has issued to the lender a registered fare box receipts revenue bonds in the amount of \$79,200,000 dated April 24, 2014 with a maturity date of December 1, 2050 bearing an interest rate of 3.5%, with a loan amortization schedule.

CTA borrowed \$79,200,000 in 2018 and capitalized interest through 2020. Total capitalized interest of \$5,298,000 was added to the principal repayments over the life of the loan.

	Principal*		Interest		Interest		Total
2023	\$	1,721	\$	2,789	\$ 4,510		
2024		1,782		2,728	4,510		
2025		1,844		2,666	4,510		
2026		1,908		2,601	4,509		
2027		1,975		2,535	4,510

2033 - 2037		13,019		9,529	22,548		
2038 - 2042		15,464		7,086	22,550		
2043 - 2047		18,366		4,184	22,550		
2048 - 2050		12,635		895	13,530		
Total	\$	79,676	\$	46,600	\$ 126,276		

^{*} Includes capitalized interest

NOTE 11 – TIFIA LOANS (Continued)

2015 TIFIA Loan

On February 3, 2015, CTA entered into a definitive loan agreement with the United States Department of Transportation (USDOT), an agency of the United States of America, acting by and through the Federal Highway Administrator under the Transportation Infrastructure Finance and Innovation Act (TIFIA) loan program to finance certain projects that are a part of the Authority's "Your New Blue" capital improvement program.

This loan contains a provision that in the event of default, all obligations relating to the disbursement of undisbursed Loan amounts shall automatically be deemed terminated. The unpaid principal amount of the loan, together with all interest accrued, fees, costs, expenses, indemnities and other amounts payable under the loan shall automatically become immediately due and payable.

The principal amount of the TIFIA Loan shall not exceed \$120,000,000; provided the maximum principal amount of the TIFIA loan disbursed by the USDOT, together with the amount (excluding any interest that is capitalized) of any other credit assistance provided under TIFIA, cannot exceed thirty-three percent (33%) of reasonably anticipated eligible project costs. Further, total federal funding, inclusive of the TIFIA loans and all federal direct or indirect grants, cannot exceed eighty percent (80%) of reasonably anticipated eligible project costs.

As evidence of CTA's obligation to repay the TIFIA Loan, CTA has issued to the lender two fare box receipts revenue bonds in the amounts of \$42,600,000 with a maturity date of December 1, 2029, bearing an interest rate of 2.02%, and \$77,400,000 with a maturity date of December 1, 2052, bearing an interest rate of 2.31%.

As of December 31, 2022 CTA had drawn down \$95,601,000 on the 2015 TIFIA loan. Total capitalized interest of \$117,000 was added to the principal repayments over the life of the loan. The payment schedule below assumes that the entire balance will be drawn down and will require payment. As a result, the payment schedule includes amounts that have not yet been drawn down and that the CTA is not yet obligated to pay.

	Principa		Interest		ipal* Interest		 Total
2023	\$	-	\$	2,484	\$ 2,484		
2024		6,772		2,651	9,423		
2025		6,908		2,514	9,422		
2026		7,048		2,374	9,422

2043 - 2047		31,071		6,209	37,280		
2048 - 2052		34,830		2,450	 37,280		
Total	\$	120,106	\$	48,042	\$ 168,148		

^{*} Includes capitalized interest

NOTE 11 – TIFIA LOANS (Continued)

2016 TIFIA Loan

On March 30, 2016, CTA entered into a third definitive loan agreement with the United States Department of Transportation (USDOT), an agency of the United States of America, acting by and through the Federal Highway Administration under the Transportation Infrastructure Finance and Innovation Act (TIFIA) loan program to finance certain projects that are part of the Authority's Rail Car Purchase Program.

This loan contains a provision that in the event of default, all obligations relating to the disbursement of undisbursed Loan amounts shall automatically be deemed terminated. The unpaid principal amount of the loan, together with all interest accrued, fees, costs, expenses, indemnities and other amounts payable under the loan shall automatically become immediately due and payable.

The aggregate principal amount of the loan shall not exceed \$254,930,000, (excluding any interest that is capitalized in accordance with the terms of the loan); provided, however, in no event shall the maximum principal amount of the TIFIA loan disbursed by the USDOT, together with the amount (excluding any interest that is capitalized) of any other credit assistance provided under TIFIA Act, cannot exceed thirty-three percent (33%) of reasonable anticipated eligible project costs. Further, total federal funding, inclusive of the TIFIA loan and all federal direct or indirect grants, shall not exceed eighty percent (80%) of reasonably eligible project costs.

As evidence of CTA's obligation to repay the TIFIA Loan, CTA has issued to the lender registered receipts revenue bonds in the aggregate principal amount not to exceed \$254,930,000, comprising two (2) tranches in the principal amounts of \$147,018,000 ("Tranche A-1") and \$107,912,000 ("Tranche A-2") and bearing an interest rate of 2.64%, with corresponding loan amortization schedules for each tranche. The final maturity date for the Tranche A-1 is December 1, 2049 and the earlier of (a) the last semi-annual payment date occurring no later than thirty-four (34) years from the substantial completion date and (b) December 1, 2056.

As of December 31, 2022 no drawdown had occurred on the 2016 TIFIA loan. No balance is presented for this loan on the Statements of Net Position as of December 31, 2022 or 2021.

NOTE 12 - EMPLOYEES' RETIREMENT PLAN PENSION DISCLOSURES

General Information about the Retirement Plan for Chicago Transit Authority Employees

Plan Description. The CTA participates in a single employer defined benefit pension plan covering substantially all full-time permanent union and non-union employees. The Retirement Plan for Chicago Transit Authority Employees (the Employees' Plan) is governed by Illinois state statute (40 ILCS 5/22-101). Substantially all non-temporary, full-time employees who have completed one year of continuous service ("Service") participate in the Employees' Plan. The Employees' Plan issues a separate stand-alone financial report which is available at http://www.ctaretirement.org/index.asp.

Contributions. Prior to 2008, contribution requirements of the Employees' Plan were governed by collective bargaining agreements. After 2008, contribution requirements are governed by Illinois state statute (40 ILCS 5/22-101).

NOTE 12 - EMPLOYEES' RETIREMENT PLAN PENSION DISCLOSURES (Continued)

Actual contributions made to the Employees' Plan during the years ended December 31, 2022 and 2021 are as follows (in thousands of dollars):

	 Employees' Plan				
	 2022		2021		
Employer contributions	\$ 143,591	\$	136,908		
Employee contributions	 91,779		87,550		
Total	\$ 235,370	\$	224,458		

	Employees' Plan			
	2022	2021		
Employer contribution rate	20.647%	20.647%		
Employee contribution rate	13.324%	13.324%		

Benefit terms. Substantially all non-temporary, full-time employees who have completed one year of continuous service ("Service") participate in the Employee Plan. Employees are entitled to annual pension benefits upon normal retirement at age 65, in an amount generally based on a percentage, not to exceed 70%, of their average annual compensation in the highest four of the 10 preceding years. For employees retiring on or after January 1, 2001, the percentage is 2.15% multiplied by the employee's number of continuous years of participating service. The Employee Plan permits early retirement at age 55 with three years of service, generally with reduced benefits. However, in the event of early retirement by an employee who has 25 years or more of continuous service, regardless of their age, benefits will not be reduced. In accordance with Public Act 095-0708, for all employees hired on or after January 18, 2008, eligibility for an unreduced pension benefit has changed to age 64 with 25 years of service and early retirement is age 55 with 10 years of service. Benefits are paid monthly equal to one-twelfth of the annual benefit for the retiree's lifetime. Married employees can elect to receive their pension benefits in the form of a joint and survivor option. In addition to retirement benefits, the Employee Plan also provides disability and death benefits.

Employees covered by the benefit terms. The following participants were covered by the benefit terms as of January 1, 2021 and January 1, 2020:

	Employees' Plan
Participants as of January 1, 2021	
Retirees and beneficiaries currently receiving benefits	10,616
Terminated employees entitled to but not yet receiving benefits	160
Active plan members	8,078
Total	18,854
Participants as of January 1, 2020	
Retirees and beneficiaries currently receiving benefits	10,559
Terminated employees entitled to but not yet receiving benefits	151
Active plan members	8,057
Total	18,767

NOTE 12 - EMPLOYEES' RETIREMENT PLAN PENSION DISCLOSURES (Continued)

Net Pension Liability

The CTA's net pension liability was measured as of December 31, 2021 and 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2021 and 2020.

Actuarial assumptions and calculations. The total pension liability was determined using the following actuarial assumptions, applied to the periods included in the measurement:

	Employee Plan
January 1, 2022 Actuarial Valuation	
Acturial valuation date	January 1, 2021
Measurement date	December 31, 2021. Census data was collected as of January 1, 2021. Liabilities measured as of the census date were projected to December 31, 2021, assuming no demographic gains or losses.
Investment return	8.25% per annum, compounded annually, including inflation, net of expenses
Inflation	3.10% per annum
Salary increases	Service graded table starting at 11% with 3.5% ultimate rate after 5 years of service
Future ad hoc benefit increases	None assumed
Mortality	SOA Public Mortality General Below Median generational with Improvement Scale MP-2018
Early retirement age	Employees hired before January 17, 2008, can retire at age 55 with reduced benefits. However, if the employee has 25 years or more of continuous service, regardless of age, the employee can retire with full benefits. Employees hired after January 17, 2008, are eligible for an unreduced pension benefit at age 64 with 25 years of service.
Normal retirement age	65
Actuarial cost method	Entry age normal - level percentage of pay
Asset valuation method	5-year smoothed actuarial value of assets
Experience study	The actuarial assumptions used were based on the results of an actuarial experience study for the period January 1, 2013 through December 31, 2017.

NOTE 12 - EMPLOYEES' RETIREMENT PLAN PENSION DISCLOSURES (Continued)

	Employee Plan
January 1, 2021 Actuarial Valuation	
Acturial valuation date	January 1, 2020
Measurement date	December 31, 2020. Census data was collected as of January 1, 2020. Liabilities measured as of the census date were projected to December 31, 2020, assuming no demographic gains or losses.
Investment return	8.25% per annum, compounded annually, including inflation, net of expenses
Inflation	3.10% per annum
Salary increases	Service graded table starting at 11% with 3.5% ultimate rate after 5 years of service
Future ad hoc benefit increases	None assumed
Mortality	SOA Public Mortality General Below Median generational with Improvement Scale MP-2018
Early retirement age	Employees hired before January 17, 2008, can retire at age 55 with reduced benefits. However,if the employee has 25 years or more of continuous service, regardless of age, the employee can retire with full benefits. Employees hired after January 17, 2008, are eligible for an unreduced pension benefit at age 64 with 25 years of service.
Normal retirement age	65
Actuarial cost method	Entry age normal - level percentage of pay
Asset valuation method	5-year smoothed actuarial value of assets
Experience study	The actuarial assumptions used were based on the results of an actuarial experience study for the period January 1, 2013 through December 31, 2017.

From 2020 to 2021, there were no changes in the actuarial assumptions.

NOTE 12 - EMPLOYEES' RETIREMENT PLAN PENSION DISCLOSURES (Continued)

Best estimates of arithmetic real rates of return for each major asset class included in the Employees' Plan target asset allocation as of January 1, 2022 and 2021 are summarized in the following tables (note that the rates shown below include the inflation components):

	Employees' Plan					
	Decemb	per 31, 2021	Decemb	ember 31, 2020		
	Target Allocation	Estimate of expected long-term rate of return	Target Allocation	Estimate of expected long-term rate of return		
Fixed income	15%	3.85%	15%	3.60%		
Domestic equities	30	8.35	30	7.53		
International equities	26	6.90	26	6.32		
Venture capital and partnerships	10	8.48	10	9.23		
Real estate	12	6.16	12	7.22		
Hedge funds	-	-	-	6.11		
Infrastructure	7	4.87	7	6.19		

The long-term expected rate of returns on pension plan investments were determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of returns by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Discount rate. The discount rate used to measure the total pension liability was 8.25% for both 2022 and 2021. The projection of cash flows used to determine the discount rate assumed that Employees' Plan members and employer contributions will continue to follow the current funding policy. Based on those assumptions, the Employees' Plan fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 12 - EMPLOYEES' RETIREMENT PLAN PENSION DISCLOSURES (Continued)

Changes in Net Pension Liability (in thousands of dollars):

NOTE 12 - EMPLOYEES' RETIREMENT PLAN PENSION DISCLOSURES (Continued)

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued CTA Employees' Retirement Plan financial report.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions.

For the years ended December 31, 2022 and 2021, CTA recognized pension expense of \$113,362,000 and \$148,644,000, respectively. At December 31, 2022 and 2021, CTA reported net deferred outflows of resources related to pensions from the following sources:

Difference between projected and
actual
earnings on pension plan
Difference between expected and
actual
experience
Changes in assumptions
Employer contribution made after
measurement date
Balance as of 12/31

General Information about the Supplemental Plans

Plan Description. The CTA also maintains separate single-employer, defined benefit pension plans for selected individuals. The supplemental retirement plans provide benefits to employees of the CTA in certain employment classifications. The supplemental retirement plans consist of the: (1) closed board member plan (Board) (2) closed (Non-Qualified) supplemental plan for members that retired or terminated employment before March 2005, including early retirement incentive, and (3) closed (Qualified) supplemental plan for active employees and members retiring after March 2005. All plans are closed to new entrants. CTA received qualification under Section 401(a) of the Internal Revenue Code for the supplemental plan and established a qualified trust during 2005 for members retiring after March 2005 (Qualified Supplemental Retirement Plan). The Qualified Supplemental Retirement Plan is reported in a fiduciary fund, whereas the activities for the Non-Qualified and Board plans are included in the financial statements of the CTA's business-type activities. There are no separate stand-alone financial reports issued for any of the Supplemental Plans.

Each of the Supplemental plans are administered by the Employee Retirement Review Committee (ERRC) of the CTA, whose members are appointed by the Board of Directors of the CTA, which retains oversight of the plan administration. The plans are each established by CTA ordinances, which grant the ERRC operational authority and can be modified by the CTA Board. The Board and Non-Qualified plans do not have assets accumulated in a trust.

NOTE 13 – SUPPLEMENTAL PLANS PENSION DISCLOSURES (Continued)

Contributions. The Board and Non-Qualified plans are administered on a pay as you go basis. The CTA contributes to the Qualified plan based on an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability.

The CTA's annual pension cost for the current year and related information for fiscal years ended December 31, 2022 and 2021 for each plan are as follows (in thousands of dollars):

	Qualified Supplemental	Non-Qualified Supplemental	Board Plan
Actual 2022 contributions:			
CTA	\$933	\$1,909	\$356
Plan members	\$0	\$0	\$3
Actual 2021 contributions:			
CTA	\$1,016	\$2,036	\$366
Plan members	\$0	\$0	\$3

Benefit terms.

<u>Qualified and Non-Qualified Plans</u>: Employees of the CTA in certain employment classifications established by Board ordinance are eligible to participate based on age and service credit, generally as follows: at age 65, at age 55 with three years of pensionable service or with twenty-five years of pensionable service. Disability and death benefits are provided to employees.

Benefits are based on the highest average annual compensation ("AAC") over any four calendar years out of the final ten years prior to retirement. For normal retirement and disability retirees, the benefit is the lessor of 1% of AAC per year of service or the excess of 75% of AAC over the benefit payable under the Retirement Plan for CTA Employees. For early retirees, the benefit is the lessor of 1% of AAC per year of service or the excess of 75% of AAC multiplied by the ratio of service completed at early retirement to service projected to age 65 over the benefit payable under the Retirement Plan for CTA Employees, with this benefit commencing at age 65. Benefits can commence prior to age 65 under certain conditions, generally as follows: any time after age 55 with a 5% reduction for each year under age 65 or with twenty-five years of service with no reduction. A minimum benefit is payable to an employee under normal, early or disability retirement equal to one-sixth of 1% of AAC multiplied by years of service limited to a maximum of 5% of AAC, with the minimum benefit commencing at early retirement. Termination benefits available to employees who complete ten years of service are as follows: the lessor of 1% of AAC per year of service or the excess of 75% of AAC over the benefit payable under the Retirement Plan for CTA Employees, with the benefit commencing at age 65.

Qualified and Non-Qualified participants who retire on or after February 1, 1984 may receive credit for service with certain other governmental agencies, if satisfying certain conditions and making required application and contributions. In addition to the increased supplemental benefits attributable to such "bridged" service, the Supplemental Plan is responsible for paying any additional benefits that the employees would be eligible for under the Retirement Plan for CTA Employees had they received this additional bridged service under both plans.

<u>Board Plan</u>: Individuals appointed to the Chicago Transit Board are eligible to participate based on age and service credit, generally as follows: at age 65 with completion of two years of service or at age 50 with completion of five years of service.

NOTE 13 – SUPPLEMENTAL PLANS PENSION DISCLOSURES (Continued)

Benefits are based, generally, on provisions of the Retirement Plan for CTA Employees and the Supplemental Plan, to provide benefits to members of the Board comparable to what they would receive if employees of the CTA participating in those plans – with certain additional conditions and provisions, including specified minimum benefits, intended to take into account the anticipated periods of service by individuals as members of the Board.

Participants in the Board Plan may receive credit for service with certain other governmental agencies, if satisfying certain conditions and making required application and contributions – generally on terms similar to those applying to Qualified and Non-Qualified Plan participants receiving credit for bridged service.

Employees covered by the benefit terms. The following participants were covered by the benefit terms as of January 1, 2023 and January 1, 2022:

	Qualified	Non-Qualified	Board	Total
Participants as of January 1, 2023				
Retirees and beneficiaries currently receiving benefits	124	249	17	390
Terminated employees entitled to but				
not yet receiving benefits	10	3	5	18

Net Pension Liabilities

Actuarial assumptions and calculations. The total pension liabilities in the December 31, 2022 and 2021 actuarial valuation were determined using the following actuarial assumptions, applied to the periods included in the measurement:

2022 Actuarial Assumptions

Acturial valuation date December 31, 2022

Measurement date December 31, 2022

Investment return

Qualified 6.75% per year

Non-Qualified and Board 4.05% Inflation 2.50%

Salary increases 3.50% per year Future ad hoc benefit increases 0.00% per year

Mortality PubG-2010 base rates projected to 2022 using Scale MP2021

Early retirement age

Qualified and Non-Qualified 55 with completion of three years of pensionable service. For

employees hired before January 1, 2000, with 25 years of service,

there is no age requirement.

Normal retirement age

Qualified and Non-Qualified 65 with completion of three years of service

Board 65 with completion of two years of service or age 50 with completion

of five years of service

Actuarial cost method Entry Age Normal

2021 Actuarial Assumptions

Acturial valuation date December 31, 2021
Measurement date December 31, 2021

Investment return

Qualified 6.75% per year

Non-Qualified and Board 1.84%
Inflation 2.50%
Salary increases 3.50% per year
Future ad hoc benefit increases 0.00% per year

Mortality PubG-2010 base rates projected to 2021 using Scale MP2021

Early retirement age

Qualified and Non-Qualified 55 with completion of three years of pensionable service. For

employees hired before January 1, 2000, with 25 years of service,

there is no age requirement.

Normal retirement age

Qualified and Non-Qualified 65 with completion of three years of service

Board 65 with completion of two years of service or age 50 with completion

of five years of service

Actuarial cost method Entry Age Normal

NOTE 13 - SUPPLEMENTAL PLANS PENSION DISCLOSURES (Continued)

Changes in assumptions from 2021-2022 include: investment return increase for the Non-Qualified and Board Plans from 1.84% to 4.05% and change in mortality table from PubG-2010 base rates projected to 2021 with scale MP2021 to PubG-2010 base rates projected to 2022 with scale MP2021 for 2022.

Changes in assumptions from 2020-2021 include: investment return decrease for the Non-Qualified and Board Plans from 2.00% to 1.84% and change in mortality table from RP-2014 mortality projected to 2020 based on Scale MP-2020 to the PubG-2010 base rates projected to 2021 with scale MP2021 for 2021.

Best estimates of arithmetic real rates of return over a ten year investment horizon for each major asset class included in the Supplemental Plans target asset allocation as of December 31, 2022 and 2021 are summarized in the following tables (note that the rates shown below include the inflation components):

	2022 Target Allocation	2022 Estimate of expected rate of return	2021 Target Allocation	2021 Estimate of expected rate of return
U.S. Large Size Company Equities U.S. Mid Size Company Equities U.S. Small Size Company Equities Developed Non-U.S. Size Company Equities Emerging Markets Company Equities	20.0% 5.0% 5.0% 15.0% 5.0%	6.8% 7.3% 7.9% 7.5% 7.6%	20.0% 5.0% 5.0% 15.0% 5.0%	7.0% 7.2% 8.0% 7.4% 7.4%
Total Equities	50.0%		50.0%	
U.S. Fixed Income	30.0%	4.9%	30.0%	1.9%
Total Fixed Income	30.0%		30.0%	
Real Estate	10.0%	6.8%	10.0%	6.5%
Total Real Estate	10.0%		10.0%	
Open-End Private Equity	10.0%	11.4%	10.0%	11.0%
Total Private Equity	10.0%		10.0%	
Total Assets	100.0%		100.0%	

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected long-term future real rates of return over the projected investment horizon (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected long-term future real rates of return by the target asset allocation percentage and by adding expected inflation.

NOTE 13 - SUPPLEMENTAL PLANS PENSION DISCLOSURES (Continued)

Discount rate. The discount rates used to measure the total pension liabilities in 2022 were 6.75% for the Qualified and 4.05% for the Non-Qualified and Board. The Qualified discount rate of 6.75% is the same rate that was used to measure the total pension liabilities as of December 31, 2021. The Non-Qualified and Board discount rate of 4.05% is a change from 1.84% that was used to measure the total pension liabilities as of December 31, 2021. The projection of cash flows used to determine the discount rate assumed that the System's contributions will continue to follow the current funding policy. Based on those assumptions, the System's Qualified Plans fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

The discount rates used to measure the total pension liabilities in 2021 were 6.75% for the Qualified and 1.84% for the Non-Qualified and Board. The Qualified discount rate of 6.75% is the same rate that was used to measure the total pension liabilities as of December 31, 2020. The Non-Qualified and Board discount rate of 1.84% is a change from 2.00% that was used to measure the total pension liabilities as of December 31, 2020. The projection of cash flows used to determine the discount rate assumed that the System's contributions will continue to follow the current funding policy. Based on those assumptions, the System's Qualified Plans fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

	December 31, 2021			
	Qualified	Non-Qualified	Board	
Pension expense	\$ 1,163	\$ 1,296	\$ 452	
Deferred Inflows of Resources Net difference between projected and actual earnings on pension plan:	\$ (2,558)	_\$ -	<u>\$ -</u>	
Total Deferred Inflows	\$ (2,558)	\$ -	\$ -	

CTA did not report a deferred outflow of resources related to pensions resulting from contributions paid subsequent to the measurement dates for any Supplemental Plan for December 31, 2022 and 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in the pension expense as follows for December 31, 2022 and 2021 (in thousands of dollars):

GASB Statements No. 67 Financial Reporting for Pensions Plans—an amendment of GASB Statement No. 25

Investments. The Board and Non-Qualified plans are administered on a pay as you go basis. The Non-Qualified plan does not have any associated assets. The Board plan has a limited reserve held in cash or cash equivalents, which is not actively managed or associated with an investment policy. The Qualified plan's investment policy is established and may be amended by the CTA's Employment Retirement Review Committee. The primary objective of the policy is to provide a documented structure for the implementation of investment strategies which suggests the highest probability of maximizing the level of investment return within acceptable parameters for the total Fund's volatility and risk.

NOTE 13 – SUPPLEMENTAL PLANS PENSION DISCLOSURES (Continued)

For the years ended December 31, 2022 and 2021, the annual money-weighted rate of return on Qualified plan assets, net of pension plan investment expense, was -10.68% and 11.92%, respectively. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Actuarial assumptions: The total pension liability was determined by an actuarial valuation as of December 31, 2022 and 2021, using the following actuarial assumptions, applied to all periods included in the measurement:

	<u>12/31/2022</u>	<u>12/31/2021</u>
Inflation	2.50% per year	2.50% per year
Salary increases	3.50% per year	3.50% per year
Investment rate of return (Discount rate)		
Qualified Plan	6.75% per year	6.75% per year
Non-Qualified and Board Plan	4.05% per year	1.84% per year

Mortality rates were based on the PubG-2010 base rates projected to 2022 using Scale MP2021 and the PubG-2010 base rates projected to 2021 using Scale MP2021 for the years ended December 31, 2022 and 2021, respectively.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return over the projected investment horizon (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of December 31, 2022 and 2021 (see the discussion of the pension plan's investment policy). The 4.05% and 1.84% rates used for the Non-qualified and Board plans represents the 20-year municipal bond rate as determined by the 20-year bond buyer index as of December 31, 2022 and 2021, respectively.

Summary (in thousands of dollars):

	Е	mployees'	Sup	plemental

NOTE 14 - OTHER POSTEMPLOYMENT BENEFITS

Plan Descriptions – Other Postemployment Benefits (OPEB)

Employees' Plan – Retiree Healthcare Benefits: In accordance with Public Act 95-708, all retiree healthcare benefits are to be paid from the Retiree Health Care Trust (RHCT), a single employer defined benefit plan. The RHCT was established in May 2008 and began paying for all retiree healthcare benefits in February 2009. For financial reporting purposes, the postemployment healthcare benefits are considered, in substance, a postemployment healthcare plan administered by the RHCT. Members are eligible for health benefits based on their age and length of service with CTA. The legislation provides that CTA will have no future responsibility for retiree healthcare costs. The RHCT issues a separate stand-alone financial report which is available at http://www.ctaretirement.org/index.asp.

<u>Supplemental and Board Plans – Retiree Healthcare Benefits</u>: Employees of the CTA in certain employment classifications are eligible to participate in the supplemental retirement plan, a single employer defined benefit plan. Members of the Supplemental Plan with bridged service or service purchased through the Voluntary Termination Program are eligible for Supplemental Healthcare benefits if they retired under the Supplemental Plan and do not immediately qualify for healthcare benefits under the CTA RHCT. Supplemental Healthcare Plan benefits are administered through the CTA's healthcare program covering active members. Supplemental healthcare benefits cease when the member becomes eligible for healthcare coverage under the RHCT. Certain members not eligible for benefits under the RHCT will continue to receive benefits through the CTA's healthcare program covering active members. The benefits are dependent on the amount of bridged service and the amount of service at the CTA that is credited in the Employees Plan.

Chicago Transit Board members participate in a separate Board Member Retirement Plan, a single employer defined benefit plan, and a Supplemental Plan. Board members with greater than five years of service are eligible for healthcare benefits immediately after termination or retirement.

The Supplemental and Board Plans do not issue separate stand-alone financial reports and do not have assets accumulated in a trust.

GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.

<u>Covered Participants</u> – The following participants were covered by the benefit terms as of January 1, 2023 and January 1, 2022:

	Supplemental & Board Plans
Participants as of January 1, 2023	
Retirees and beneficiaries currently receiving benefits	47
Terminated employees entitled to but not yet receiving benefits	6
Active plan members	1
Total	54
Participants as of January 1, 2022	
Retirees and beneficiaries currently receiving benefits	56
Terminated employees entitled to but not yet receiving benefits	6
Active plan members	4
Total	66

NOTE 14 - OTHER POSTEMPLOYMENT BENEFITS (Continued)

<u>Contributions</u> – Funding for the Supplemental and Board Retiree Healthcare Plans are on a pay-as-you-go basis. CTA's contribution rate was 2,624.51% and 131.25% of covered employee payroll for the years ended December 31, 2022 and 2021, respectively. Retirees also make monthly contributions to the healthcare plan. Such contributions are determined annually by the plan administrator based on expected annual cost.

<u>Total OPEB Liability</u> – CTA's total OPEB liability was measured as of December 31, 2022 and 2021 and the total OPEB liability was determined by an actuarial valuation as of those dates.

Actuarial Assumptions – Projection of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the type of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Actuarial valuations were performed for the OPEB Plan as of December 31, 2022 and 2021. The following table shows a summary of significant actuarial assumptions:

2022 Actuarial Assumptions

Acturial valuation date	December 31, 2022
Measurement date	December 31, 2022

and after.

Mortality PubG-2010 base rates projected to 2021 using Scale MP2021

Future participation For future eligible retirees, 100% are assumed to elect medical

coverage.

Dependent coverage 75% of employees were assumed to have spouses. Females were

assumed to be 3 years younger than males. Of those covered under the provisions providing single coverage at no cost with higher dependent premium rates, 62.5% are assumed to elect single coverage and 37.5% are assumed to elect single and dependent coverage. Of those covered under the VTP healthcare provisions, 15.0% are assumed to elect single coverage and 85.0% are assumed to elect single and dependent coverage. Supplemental deferred vested members are assumed to elect single and dependent coverage and 50% are assumed to elect single coverage and 50% are assumed to elect single and dependent coverage. 50% of spouses covered under the healthcare plan during retirement are assumed to continue coverage

after the death of the retiree.

Actuarial cost method Entry Age Normal Actuarial Cost Method

Changes in assumptions from 2021 to 2022 include the investment return increase from 1.84% to 4.05% and the mortality assumption was changed from the PubG-2010 base rates projected to 2021 with scale MP2021 for 2021 to the PubG-2010 base rates projected to 2022 with scale MP2021 for 2022.

Changes in assumptions from 2020 to 2021 include the investment return decrease from 2.00% to 1.84% and the mortality assumption was changed from the RP2014 base rates projected to 2020 with scale MP2020 for 2020 to the PubG-2010 base rates projected to 2021 with scale MP2021 for 2021.

Discount rate. The discount rate used to measure the total OPEB liability in 2022, 2021 and 2020 was 4.05%, 1.84% and 2.00%, respectively. The single discount rate was determined by the 20-year municipal bonds rates based on an index of 20-year obligation bonds with an average AA credit rating. The contribution policy assumed for this valuation was pay-as-you-go.

NOTE 14 - OTHER POSTEMPLOYMENT BENEFITS (Continued)

Changes in Net OPEB Liability: The changes in the total OPEB liability for the plan are as follows (in thousands of dollars):

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB. For the years ended December 31, 2022 and 2021, CTA recognized OPEB expense of \$(2,118,000) and \$499,000, respectively. At December 31, 2022 and 2021, CTA reported no deferred inflows/outflows of resources related to OPEB.

NOTE 15 - RISK MANAGEMENT

The CTA is exposed to various types of risk of loss, including torts; theft of, damage to, or destruction of assets; errors or omissions; job-related illnesses or injuries to employees; natural disasters; and environmental occurrences. Also included are risks of loss associated with providing health, dental, and life insurance benefits to employees.

The CTA provides health insurance benefits to employees through a self-insured comprehensive PPO plan. The CTA provides dental insurance benefits through an insured dental maintenance organization and a self-insured dental indemnity plan. The CTA does not purchase stop-loss insurance for its self-insured comprehensive PPO plan. The CTA provides life insurance benefits for active employees through an insured life insurance program.

CTA purchases property insurance for damage to CTA property, including rolling stock. This insurance program is effective July 29, 2022 to July 29, 2023. Property limit of liability is \$180,000,000 per occurrence, and is purchased in three layers. The first/primary layer provides a \$25,000,000 limit. The first excess layer provides a \$105,000,000 limit excess and above the primary. The second excess layer provides the final \$50,000,000 limit excess. The basic policy deductible is \$1,000,000 per each occurrence, with a \$5,000,000 deductible for each rail car collision or derailment claim.

For its 45 underground storage tanks ("UST"), CTA purchases UST insurance to provide coverage in the event of soil or groundwater contamination from a UST leak. This insurance policy is effective January 28, 2023 to January 28, 2024 and provides a limit of \$1,000,000 per UST incident and \$2,000,000 total policy aggregate, with a tiered deductible based on the age of the UST.

The CTA is also self-insured for general liability, workers' compensation, employee accidents, non-UST-related environmental liability, automotive liability losses, employment-related suits, including discrimination and sexual harassment, and management liability of board members, directors, and officers of the CTA.

NOTE 15 - RISK MANAGEMENT (Continued)

The RTA provides excess liability insurance to protect the self-insurance programs for general liability and terrorism currently maintained by the CTA. There are five insurance policies in effect from June 15, 2022 to June 15, 2023. The first policy provides \$10,000,000 in excess of the \$15,000,000 self-insured retention and \$20,000,000 in the aggregate. The second policy provides \$5,000,000 in excess of the \$25,000,000 and \$10,000,000 in the aggregate. The third policy provides \$10,000,000 in excess of \$30,000,000 and \$20,000,000 in the aggregate. The fourth policy provides \$10,000,000 in excess of \$40,000,000 and \$20,000,000 in the aggregate. The fifth policy provides \$50,000,000 in excess of \$50,000,000 and \$100,000,000 in the aggregate. As of December 31, 2022, one CTA claim existed that is expected to exceed the \$15,000,000 self-insured retention under this insurance policy.

The CTA participates in a Joint Self-Insurance Fund (the Fund) with the RTA that permits the CTA to receive monies necessary to pay injury and damage claims in excess of \$2,500,000 per occurrence up to the total balance in the Fund or a maximum of \$47,500,000. The CTA is obligated to reimburse the Fund for the principal amount borrowed plus a floating interest rate. However, the CTA is not obligated to make reimbursement payments, including interest, in excess of \$3,500,000 in any one year. No borrowings were made from the Fund in fiscal years 2022 or 2021.

Settlements did not exceed coverage for any of the past three years, and there has been no significant reduction in coverage during that period.

Self-insured liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. Claims liabilities are reevaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors. The estimate for injury and damage claims is adjusted for a current trend rate and discount factor of 3.5% and 3.0%, respectively. The estimate for workers' compensation claims is adjusted for a current trend rate and discount factor of 2.0% and 3.0%, respectively. Changes in the balance of claims liabilities during the past two years are as follows (in thousands of dollars):

	Injury and damage		Group health and dental		Workers' compensation		Total
Balance at January 1, 2020	\$	85,287	\$	12,340	\$	158,900	\$ 256,527

Balance at December 31, 2022	\$	102,195	\$	11,242	\$	169,556	\$ 282,993

NOTE 15 - RISK MANAGEMENT (Continued)

Chapter 70, Paragraph 3605/39 of the Illinois Compiled Statutes requires the CTA to establish an injury and damage reserve in order to provide for the adjustment, defense, and satisfaction of all suits, claims, and causes of action, and the payment and satisfaction of all judgments entered against the CTA for damages caused by injury to or death of any person and for damages to property resulting from the construction, maintenance, and operation of the transportation system. The statute also requires the CTA to separately fund the current year's budgeted provision for the injury and damage reserve. See Note 5 regarding cash and investment amounts maintained in this account.

NOTE 16 - LINE OF CREDIT - NOTE PURCHASE AGREEMENT

2018 Line of Credit

On July 10, 2018, the Chicago Transit Authority entered into a tax-exempt Note Purchase Agreement (NPA) with Bank of America, N.A. in a not-to-exceed amount of \$150,000,000. The Notes are secured by a pledge of sales tax revenue receipts on parity with the existing Second Lien Sales Tax Receipts Revenue Bonds and may be drawn upon at any time for Capital Projects, the payment of costs of issuance related to this Note, and to refund short-term obligations issued pursuant to this Note. Interest on the Notes is based upon the LIBOR rate. The Notes had an initial commitment expiration date of July 10, 2020, which was extended to September 30, 2021. This line of credit was replaced with an NPA with JP Morgan Chase Bank, National Association on September 24, 2021.

This line of credit contains a provision that in the event of default the obligation is to become immediately due and payable in full as the result of acceleration as defined in the Events of Default section.

No principal was outstanding on the Notes as of December 31, 2022 and 2021.

2019 Line of Credit

On July 12, 2019, the Chicago Transit Authority entered into a Note Purchase Agreement (NPA) with PNC Bank, National Association in a not-to-exceed amount of \$150,000,000. The Notes are secured by a pledge of sales tax revenue receipts on parity with the existing Second Lien Sales Tax Receipts Revenue Bonds and may be drawn upon at any time for Capital Projects, the payment of costs of issuance related to this Note, and to refund short-term obligations issued pursuant to this Note. Interest on the Notes is based upon the LIBOR rate. The Notes had an initial commitment expiration date of July 11, 2022. This line of credit was replaced with an NPA with Wells Fargo, National Association.

This line of credit contains a provision that in the event of default the obligation is to become immediately due and payable in full as the result of acceleration as defined in the Events of Default section.

The principal of outstanding Notes was \$138.0 million as of December 31, 2021. The unused line of credit was \$12.1 million as of December 31, 2021. No principal was outstanding on the Notes as of December 31, 2022.

(Continued)

NOTE 16 - LINE OF CREDIT - NOTE PURCHASE AGREEMENT (Continued)

2021 Line of Credit

On September 24, 2021, the Chicago Transit Authority entered into a Note Purchase Agreement (NPA) with JP Morgan Chase Bank, National Association in a not-to-exceed amount of \$150,000,000. The Notes are secured by a pledge of sales tax revenue receipts on parity with the existing Second Lien Sales Tax Receipts Revenue Bonds and may be drawn upon at any time for Capital Projects, the payment of costs of issuance related to this Note, and to refund short-term obligations issued pursuant to this Note. Interest on the Notes is based upon the LIBOR rate. The Notes have an initial commitment expiration date of September 24, 2026. This line of credit replaced the Authority's prior line of credit with Bank of America, National Association, which expired on September 30, 2021.

This line of credit contains a provision that in the event of default the obligation is to become immediately due and payable in full as the result of acceleration as defined in the Events of Default section.

The principal of outstanding Notes was \$38.5 million and \$99.4 million as of December 31, 2022 and 2021, respectively. The unused 2021 line of credit was \$111.5 million and \$50.7 million as of December 31, 2022 and 2021, respectively.

2022 Line of Credit

On July 8, 2022, the Chicago Transit Authority entered into a Note Purchase Agreement (NPA) with Wells Fargo, National Association in a not-to-exceed amount of \$150,000,000. The Notes are secured by a pledge of sales tax revenue receipts on parity with the existing Second Lien Sales Tax Receipts Revenue Bonds and may be drawn upon at any time for Capital Projects, the payment of costs of issuance related to this Note, and to refund short-term obligations issued pursuant to this Note. Interest on the Notes is based upon the LIBOR rate. The Notes have an initial commitment expiration date of July 8, 2025. This line of credit replaced the Authority's prior line of credit with PNC Bank, National Association, which expired on July 11, 2022.

This line of credit contains a provision that in the event of default the obligation is to become immediately due and payable in full as the result of acceleration as defined in the Events of Default section.

The principal of outstanding Notes was \$60.4 million as of December 31, 2022. The unused 2022 line of credit was \$89.6 million as of December 31, 2022.

NOTE 17 - COMMITMENTS AND CONTINGENCIES

<u>Litigation</u>: The CTA has been named as a defendant in various other legal proceedings arising in the normal course of operations. Although the ultimate outcome of these matters cannot be presently determined, it is the opinion of management of the CTA that resolution of these matters will not have a material adverse impact on the CTA's financial statements.

<u>Defeased Debt</u>: On October 26, 2006, the PBC issued Building Refunding Revenue Bonds for the benefit of the CTA in the amount of \$91,340,000. The proceeds of the bonds were used to advance refund the Public Building Commission of Chicago, Series 2003 bonds. The outstanding balance of the defeased debt as of December 31, 2022 and 2021 was \$9,550,000 and \$18,650,000, respectively.

(Continued)

NOTE 18 - COVID-19 PANDEMIC

The United States and the State of Illinois declared a state of emergency in March 2020 due to the COVID-19 global pandemic. During this evolving situation, CTA continues to analyze the impact on its financial position. Below is a summary of the federal funding that has supplemented the lower fare and public funding revenues due to the pandemic.

Coronavirus Aid, Relief, and Economic Security Act of 2020 (CARES)

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (CARES) Act was signed into law. The regional share of CARES Act funding to the RTA and Service Boards was \$1.438 billion. CTA has been allocated approximately \$817.5 million in CARES Act funding.

Coronavirus Response and Relief Supplemental Appropriations Act of 2021 (CRRSAA)

On December 27, 2020, the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 (CRRSAA) was signed into law. The regional share of CRRSAA funding to the RTA and Service Boards was \$486 million. CTA has been allocated approximately \$361.3 million in CRRSAA funding.

American Rescue Plan Act of 2021 (ARP)

On March 11, 2021, the American Rescue Plan Act of 2021 was signed into law. The regional share of ARP Act funding to the urbanized area, including RTA and Service Boards was \$1.496 billion. CTA has been allocated approximately \$912.1 million in ARP funding and \$118.4 million in ARP discretionary funding.

The funding provided through the CARES Act; CRRSAA; and ARP allowed for changes in how recipients use FTA funds. The most significant of these changes has been allowing recipients to charge operating expenses to FTA grants with no matching requirements.

The RTA approved a provision to allow the federal operating assistance which was provided to replace fare revenue lost due to the COVID-19 pandemic to be included as operating revenue for purposes of the recovery ratio calculation.

NOTE 19 - SUBSEQUENT EVENTS

Bonds Payable Ratings

On February 21, 2023, Standard & Poors Global Ratings raised its long-term rating to "A+" from "A" on CTA's capital grant receipts revenue bonds secured by Federal Transit Administration's (FTA) Section 5307 Urbanized Area Formula Funds and also reaffirmed its "A+" long-term rating on CTA's capital grant receipts revenue bonds secured by FTA's Section 5337 State of Good Repair Formula Funds.

Risk Management

In 2023, the Chicago Transit Authority Board approved to settle a general liability claim for a total of \$20.0 million. As this settlement was in excess of the CTA's self-insured retention, the CTA was reimbursed a total of \$5.0 million plus costs of \$0.2 million in March 2023.

Notes to Schedule

Valuation date: January 1, 2021

Methods and assumptions used to determine contribution rates:

Actuarial cost method Entry Age Normal - Level Percentage of Pay

Amortization method For pension expense; the difference between expected and actual liability experience and changes of assumptions

are amortized over the average of the expected remaining service lives of all members. The difference between

projected and actual earnings is amortized over a closed period of five years.

Remaining amortization period 5 Years - Closed

Asset valuation method 5-year Smoothed Actuarial Value of Assets

Inflation 3.10%

Salary increases 11% for 1 year of service, 12% for 2 years of service, 16% for 3 years of service, 8% for 4 years of service,

and 3.5% thereafter.

Investment rate of return 8.25%
