## **January 2018 Performance Metrics**

The purpose of CTA's monthly performance metrics is to set internal goals for agency performance to encourage improvement and establish accountability. Below is information that may be helpful in understanding the metrics for the month of January including progress that has been made in several metrics. All boxes in green demonstrate that CTA met or exceeded its monthly target and yellow boxes mean that the CTA came within 10% of the monthly performance target. Targets missed by more than 10% are indicated by a red colored box

In January, the CTA met, exceeded or came within 10% of the agency's monthly internal targets in all categories for bus and rail, including:

- Rail Ridership;
- Bus Ridership;
- Total Ridership;
- Percentage of Big Gap Intervals in Bus;
- Mean Miles between Reported Rail and Bus Vehicle Defects;
- Average Interior Rail and Bus Clean Inspection scores; and others.

Historically low temperatures were a contributing factor in two rail system categories missing their monthly targets for January. Both Rail Delays of 10 Minutes or More and Average Daily Percent of Rail Fleet Unavailable for Service missed their targets due to an increase in vehicle and track equipment issues requiring repairs. The Average Daily Percent of Bus Fleet Unavailable for Service missed its target in December due to bus fleet maintenance work, which includes work associated with the mid-life overhaul of more than 200 articulated buses to make them like new and provide riders on our busiest routes with a smoother and more reliable ride. Project work was announced in May and is expected to continue through 2019.
