

Update: Information about the Red Line Extension and property demolition

As part of the Red Line Extension Project, demolition of properties previously acquired along the future track will begin at the addresses listed below. This work is expected to occur April through fall, 2025. The contractor will move around the community to perform the work, so there may be busy times, or periods of inactivity.

Notices about the work occurring on each block will be attached to resident gates and doors at least 48 hours prior to the start of demolition. If you have questions about this work, please leave a message for callback at (312) 772-2272 or email us at RedExtension@transitchicago.com. We are happy to assist.

Demolition work and impacts to the community: Noise – running air compressors, excavators, generators, general construction noise; truck traffic; street, alley, sidewalk closures; and dust.

Mitigations: Contractors will use water and other dust control

measures and will perform rodent abatement. Multiple adjacent properties will be demolished together to reduce frequency of street and alley closures. Contractors will install protective green screens on fencing. CTA will issue Construction Activity Notices (CANs) ahead of the start of work in your area.

Important information about CTA and acquisition of properties for the Red Line Extension

CTA has already notified owners and residents if their property needed to be purchased for the project.

CTA has since purchased all of the properties it needs and is no longer purchasing any additional buildings or land.
