What's new with RPM?

Since the RPM open house meeting in February 2012, CTA has been evaluating the benefits and potential impacts of the RPM improvements. We would like to share with you information about the proposed first phase of RPM improvements, which would include two main components:

- Red-Purple Bypass:** Construction of a rail bypass north of the Belmont station to eliminate delays where the Red, Purple, and Brown lines all intersect and trains must stand and wait for other trains to pass.
- Lawrence to Bryn Mawr Modernization:** Modernizing over one mile of rail track and completely rebuilding four aging stations: Lawrence, Argyle, Berwyn, and Bryn Mawr, including adding elevators at each station to make them accessible to customers with disabilities and limited mobility.

CTA welcomes your comments and feedback on each of the RPM Phase One Projects. The RPM improvements are part of CTA's Red Ahead Program, a comprehensive initiative for maintaining, modernizing, and expanding Chicago's most-traveled rail line.
