

# 'L' System Slow Zone Map

December 31, 2016

## Notes

Overall system slow zones in December 2016 were 9.8% for the month, a slight decrease from the previous month. The bulk of zones along the O'Hare branch of the Blue Line were removed following the completion of Your New Blue station and platform renewal work. A sizeable amount of slow zones were also lifted as crews make progress on track renewal, third rail replacement and tunnel cleaning in the Red Line's State Street Subway. Track renewal work continues across the system resulting in the removal of slow zones from portions of the Brown and Green lines; while new slow zones were added to portions of the north Red Line and the Lake and Ashland/63rd branches of the Green Line.
