How to read this report

This report shows many customers use the CTA rail system. The report has two sections: Ridership by Branch, and Ridership by Entrance.

How are customers counted?

A customer is counted each time he or she passes through a turnstile to enter a station. Customers are not counted when they make a free transfer from one rail line to another, since they don't pass through a turnstile. Nor are customers counted when they leave a station, even if they leave through a turnstile.

Some CTA stations serve more than one line. The report does not show the number of customers boarding each line at such stations, simply the total number of customers who entered the station. For example, even though Howard station is reported as part of the Red Line, customers also enter at Howard to ride the Purple and Yellow Lines. The report shows the number of customers who entered at Howard but does not distinguish which lines they boarded.

Ridership by Branch

The CTA system consists of several branches. Ridership on each branch is reported in this section. Some branches, such as the Congress Branch, are part of a particular line (Blue Line, in this case). Other branches, such as the Loop, are part of multiple lines.

Ridership by Entrance

Ridership at each station is shown in this section. For stations with more than one entrance, the entrances are reported individually along with the station total.

How do I compare this year to last year?

When comparing one year to another, it is best to use the weekday, Saturday, and Sunday averages rather than the monthly totals. The monthly totals are affected by the number of weekdays, Saturdays, and Sundays in the month, which can vary from year to year. For example, September 2000 and 1999 had the following breakdown of days:

	1999	2000
Weekdays	21	20
Saturdays	4	5
Sundays	5	5

Note that September of 1999 had one more weekday than September 2000 and one fewer Saturday. Since weekdays typically have much higher ridership than Saturdays, September 1999 would have a higher monthly ridership than September 2000, all other things being equal. Averaging corrects for this problem.

What if I want to compare past years?

The CTA produces two reports with historic rail ridership:

Weekday Traffic Trends shows average weekday ridership for each station for each year going back to 1976.

Annual Rail Traffic shows total annual ridership for each station for each year going back to 1979. (The years 1979-1998 are in report PSP-x99026. 1986-1999 are in report PSP-x00031.)

To obtain copies of these reports please contact Data Services and Development.

Holidays

The following holidays are reported as Sundays:

- New Year's Day
- Memorial Day
- Independence Day
- Labor Day
- Thanksgiving Day
- Christmas Day

All other holidays are reported as the type of day they fall on.

Why does it appear that there is ridership on the Douglas Branch on Saturday? Isn't it closed?

Although the Douglas Branch is closed on weekends, the Friday service extends past midnight. Those customers who enter a station after midnight on Friday (that is, on Saturday) are reported as Saturday entries.

May 2002 Notes

The following factors influenced May 2002 ridership.

Lake and Washington – Red Line

Lake and Washington stations on the Red Line used to be reported as one station, Washington. Beginning in January 2001, we are reporting these two stations separately. This affects comparisons to 2001 in several ways:

Randolph-Washington Entrance has been split into two sub-entrances – a North entrance and a South entrance. The North entrance serves the Lake station and the South entrance serves the Washington station. You will notice a large drop in ridership at the South entrance because it is being compared to the combined North and South entrances from 2001.

Washington Station shows a loss in ridership because some ridership is now being reported at the Lake station.

Lake Station, on the other hand, shows an increase in ridership because it has gained the ridership that used to be reported at the Washington station.

To make a meaningful comparison, ridership at Lake and Washington stations should be added together and compared to the combined total from 2001.

UIC-Halsted – Blue Line

The Morgan entrance at UIC-Halsted opened on September 24, 2000. Beginning in March 2001, we are reporting this entrance separately from the other two entrances at UIC-Halsted. Between September and March, customers who entered at Morgan were included in the Halsted entrance's count.

54th/Cermak – Blue Line

Due to the reconstruction of the rail yard on the Cermak (Douglas) branch of the Blue Line, service to and from the 54th/Cermak station was temporarily transferred to Laramie on February 25, 2002. The temporary station at Laramie is referred to as 54th/Cermak; however, it does not have a center platform entrance.

Bus Reroutes

The #51 51st bus was rerouted during December 2000. As a result, you will see an increase in ridership at 47th on the Red Line and a decrease at Garfield on the Red Line.
