How to read this report

This report shows how many customers use the CTA rail system. The report has two sections: Ridership by Branch, and Ridership by Entrance.

How are customers counted?

A customer is counted each time he or she passes through a turnstile to enter a station. In this report, customers are not counted when they make a free transfer from one rail line to another, since they don't pass through a turnstile. Nor are customers counted when they leave a station, even if they leave through a turnstile.

Some CTA stations serve more than one line. The report does not show the number of customers boarding each line at such stations, simply the total number of customers who entered the station. For example, even though Howard station is reported as part of the Red Line, customers also enter at Howard to ride the Purple and Yellow Lines. The report shows the number of customers who entered at Howard but does not distinguish which lines they boarded.

Ridership by Branch

The CTA system consists of several branches. Ridership on each branch is reported in this section. Some branches, such as the Forest Park Branch, are part of a particular line (Blue Line, in this case). Other branches, such as the Loop, are part of multiple lines.

Ridership by Entrance

Ridership at each station is shown in this section. For stations with more than one entrance, the entrances are reported individually along with the station total.

How do I compare this year to last year?

When comparing one year to another, it is best to use the weekday, Saturday, and Sunday averages rather than the monthly totals. The monthly totals are affected by the number of weekdays, Saturdays, and Sundays in the month, which can vary from year to year. For example, May 2005 and 2006 had the following breakdown of days:

	2005	2006
Weekdays	21	22
Saturdays	4	4
Sunday/Holidays	6	5

Note that May of 2005 had one less weekday than May 2006 and one more Sunday/Holiday. Since weekdays typically have much higher ridership than Sundays, May 2006 would have a higher monthly ridership than May 2005, all other things being equal. Averaging corrects for this problem.

What if I want to compare past years?

The CTA produces two reports with historic rail ridership:

Weekday Traffic Trends shows average weekday ridership for each station for each year going back to 1976.

Annual Rail Traffic shows total annual ridership for each station for each year going back to 1979. (The years 1979-1998 are in report PSP-x99026. 1986-1999 are in report PSP-x00031.)

To obtain copies of these reports please contact the CTA.

Holidays

The following holidays are reported as Sundays:

- New Year's Day
- Memorial Day
- Independence Day
- Labor Day
- Thanksgiving Day
- Christmas Day

All other holidays are reported as the type of day they fall on.

December 2007 Notes

The following factors influenced December 2007 rail ridership.

Temporary Red Line Reroutes – Slow Zone Elimination Project

- Various weeknights Southbound **or** northbound Red Line trains rerouted over Loop elevated.

Temporary Blue Line Service Suspension – Slow Zone Elimination Project

- December 1 through 3 Service suspended on northbound and southbound Blue line trains between Jefferson Park and Harlem. Bus shuttle instituted.
- December 7 through 10 Service suspended on northbound and southbound Blue line trains between Jefferson Park and Harlem. Bus shuttle instituted.
- December 14 through 17 Service suspended on northbound and southbound Blue line trains between Jefferson Park and Harlem. Bus shuttle instituted.

Addison Station Reopened

The Addison (Brown Line) station reopened following reconstruction on December 3, 2007. The station had closed on December 2nd, 2006 for reconstruction.

Montrose Station Reopened

The Montrose (Brown Line) station reopened following reconstruction on November 26, 2007. The station had closed on December 2nd, 2006 for reconstruction.

Damen Station Closure

The Damen (Brown Line) station temporarily closed for up to 12 months starting November 26, 2007 for reconstruction.

Irving Park Station Closure

The Irving Park (Brown Line) station temporarily closed for up to 12 months starting December 3, 2007 for reconstruction.

Diversey Brown Line Station Closure

Due to station renovation, which started on Monday, June 25, 2007 the Diversey station on the Brown Line will be temporarily closed for 12 months.

Three-Track Construction at Fullerton and Belmont stations.

Due to construction, which started on April 2, 2007 at Fullerton and Belmont stations, the Red, Brown and Purple lines began operating on three tracks instead of four. Longer wait times and more crowded trains were expected during the peak of the rush periods. In addition, Purple Line Express trains began operating around the Loop in the counter-clockwise direction, shifting riders from the Inner Loop station platforms to the Outer Loop platforms.

Southport Brown Line Station Closure

On Monday, April 2, 2007, the Southport station on the Brown Line will close temporarily for 12 months due to reconstruction.

Francisco station reopened

The Francisco station reopened for service Friday, March 9, 2007. The station had closed on September 15, 2006 for reconstruction.

Kimball station reopened

The Kimball Brown Line station reopened for service on Friday, January 12, 2007. The station had closed on September 15, 2006 for renovation.

CTA Introduces Pink Line Service

Beginning Sunday, June 25th 2006, CTA introduced new Pink Line service for the West Side and near West Suburbs. The Pink Line operates all days of the week 4am – 1:25am and travels along the Cermak Branch from the 54th/Cermak   Station in Cicero to the Polk   Station on the near West Side, north along a new connection to Lake Street, serving the Ashland-Lake   and Clinton-Lake   stations. The new line then operates around the Loop, serving all 9 stations in a clockwise direction, before traveling back to 54th/Cermak   along the same route. During weekday rush hours, Blue Line service will continue to operate along the Cermak Branch, via the Dearborn Subway and on to O'Hare  .

Ridership Reporting Implications – Pink Line

For this ridership report and from this point forward, the 11 stations along the Cermak Branch will fall under its own rail line group called the Pink Line. All year-to-year comparisons for the Cermak Branch will be titled "Pink Line" even though previous to June 25th, 2006 the branch provided only Blue Line service and it continues to provide Blue Line service during rush hour. Reporting for the Blue Line will contain the O'Hare, Dearborn and Forest Park Branches and will not include the Cermak Branch. All year-to-year comparisons for the Blue Line have been adjusted to exclude the Cermak Branch from the Blue Line totals. The Ashland   and Clinton   stations along Lake Street will continue to be grouped with the Lake Street Branch and will be summarized under the Green Line, even though these two stations also now serve the Pink Line. All downtown Loop stations will continue to be grouped as their own branch, with no specific line assignment. Furthermore, as downtown-destined Pink Line customers shift their riding patterns, many will choose to use the Loop stations for their return trip; this is expected to shift downtown riding levels from the Dearborn Subway to the Loop stations.

CTA doubles frequencies on the Forest Park Branch of the Blue Line

Also beginning Sunday, June 25th 2006, in coordination with the opening of the Pink Line, the Forest Park Blue Line had a doubling of service, providing more frequent service for customers on the West Side and near West Suburbs.
